# THE REGAL COINAGE OF BRITISH EAST AFRICA

By Thomas E. Klunzinger ANA 57779

**I**N SPITE OF the surge of Commonwealth collecting in recent years, there has been a dearth of detailed information on the coinage of British Africa. Most written efforts tend toward a simple compilation of date lists. Parson's classic gives excellent historical backgrounds, but in most cases the information stops where the coinage begins. It is hoped that Major Pridmore will soon bring his talents to this basically unexplored field.

In the meantime, this is an attempt to enlighten, clarify and correct certain published data on the East African coinage which, from a standpoint of intrinsic variety, is probably the most interesting and unique of any Commonwealth country. Bob Berman's excellent article in the October, 1969, *World Coins* is gratefully acknowledged for certain background material.

## Victoria — Pure Rupee Coinage

In the late 1880's, the European powers began grabbing up large chunks of Eastern Africa, mostly at the expense of the Sultan of Zanzibar. The British East Africa Company got what is present-day Kenya and issued their own coinage on the Indian rupee standard. (The Indian rupee enjoyed wide circulation in eastern Africa and neighboring islands.) However, due to financial problems and harassment from the Germans on the south, the Company folded in 1895 and transferred all rights to the British Crown.

The new territory was known as the East Africa Protectorate, inasmuch as local rulers still had nominal title to the land. It was only a formality to declare the rupee the local standard, since it already was, and to give it local character a pice, or 1/4 anna, was issued 1897-99.

Both obverse and reverse designs were by George W. DeSaulles, Chief Engraver, Royal Mint, London. The reverse read EAST AFRICA PROTECTORATE around a beaded circle, within which was a Moorish quadrangle containing ONE 1 PICE, date below. This was one of DeSaulles' few reverse designs, the others being the

Cyprus 1901 silver and the Straits Settlements dollar, all using his distinctive, light, serif type face. It was also, on the obverse, the only pairing of L.C. Wyon's "mature" colonial head with the Queen's complete Latin titles, namely VICTORIA- DEI- GRA- BRITT- REGINA- FID- DEF- IND- IMP-, or Victoria, by the Grace of God, Queen of All the Britains, Defender of the Faith, Empress of India. The pice was 25.5 millimeters (one inch) in diameter, weight 100 grains, the same dimensions as the Indian copper quarter-anna.

But its value was slightly less. The Indian rupee had a par value in Ceylon, for instance, of 2/- sterling equals 48c U.S. At 16 annas to the rupee, four pice to the anna, this made the Indian pice or 1/4 anna (1/64 rupee) equal to 3/4c U.S. East Africa, however, rated the rupee at 1s.4d. (16d.) sterling equals 32c U.S.; this was done, I suspect, so that one penny equalled one anna. Thus the East Africa pice neatly divided out to one farthing, or 1/2 cent U.S.

It should be noted that these pices were struck in bronze at the Royal Mint in London, and not in copper at the Bombay Mint as Parsons says. In the first place, it's illogical that the dies would have been made in London and sent to Bombay for striking, when East Africa lay smack on the shipping route to Seychelles and Mauritius, whose coins also came from London. Furthermore, Bombay last struck copper in 1893, and it is hard to believe they would have cranked up the planchet works just for this relatively small East Africa issue.

## Edward VII — Decimal Rupee Coinage

The rupee/pice arrangement would have continued indefinitely had it not been for several factors: with any local pride at all, it's always nice to have your own, complete, subsidiary coinage; the proliferating East African settlers desired this. Also, world silver prices were fluctuating all over the place at the turn of the century, complicating

imports of Indian rupees. But the clincher was undoubtedly that German East Africa decimalized its rupee coinage in 1904. This decimalized coinage soon filtered into British territory and played hob with rupee-anna-pence transactions.

Thus, the East African rupee (always a paper standard) was also decimalized into 100 cents. The first coins on this standard were issued in 1906, in 50- and 25-cent denominations. At 90 and 45 grains respectively, they weighed the same as the over-90%-silver Indian half and quarter rupee, but were only 80% silver and were each one (1) mm. smaller than the Indian coins at 23.5 and 18mm. This was done both because the Indian pieces had values elsewhere of 12d. and 6d., while the East African coins exchanged for 8d. and 4d., and to distinguish this East African token coinage from the intrinsically-more-valuable Indian.

The obverse design read EDWARD VII KING & EMPEROR and showed the King in Imperial crown and robes, being the standard colonial design completed by DeSaulles before he died in 1903. The reverse read EAST AFRICA & UGANDA PROTECTORATES (acknowledging the inland advance) around a scroll, with the date and (50) (25) CENTS at the bottom. The central device shows a stalking lion in front of what is popularly assumed to be Mount Kilimanjaro. This is unlikely, since Kilimanjaro at the time was in German East Africa. If the mountain corresponds to any real landmark it is probably Mount Kenya, almost as big as Kilimanjaro and nicely in the middle of British territory.

The Royal Mint is distressingly vague on designers 1903-23: save for the MacKenna portraits, all items are listed as "Royal Mint designed." However, since Frank Bowcher succeeded to the

position of Chief Engraver after DeSaulles' death, it may be assumed that he gets the credit for this anonymous design that prevailed for the next 50 years.

The 50c 1906-9-10 and 25c 1906 were struck at the Royal Mint; 25c 1910 were struck at The Mint, Birmingham, Ltd., with an "H" under the date. This mintmark was a carryover from the days when The Mint was known as Ralph Heaton & Sons.

Decimal base-metal coinage was introduced in 1907. All denominations were holed so the natives could carry them on strings; thus the coins had no portrait of the king. Designs for all denominations were similar, having EDWARD VII KING & EMPEROR around two obverse scrolls flanking the central hole, Imperial crown above, value below. Reverses read EAST AFRICA & UGANDA PROTECTORATES and the date, around a circle enclosing two pairs of elephant tusks about the hole, with the denominational numeral above.

It will be noted that the East African 1/2c through 10c were thus the only Commonwealth coins other than the multilingual Trade Dollar to have the denomination expressed on both sides.

The ten-cent piece was 75% copper, 25% nickel, and was struck 1907 and 1910. It was 30.8mm, the same as the British West Africa penny of similar design, but *note this*: the weight was 175 grains rather than the penny's 145.8gr. Why? The penny was worth 2c U.S., but the East Africa ten cents (of a rupee) was worth 3.2c U.S.; thus the logical size distinction. (Parsons notes that the B.W.A. penny was also proposed at 175gr., apparently for ease of manufacture, but was eventually issued at the lower, sterling-standard weight. This situation was reversed 35 years later.)

Aluminum had recently become easily recoverable from its natural ore, so some well-meaning dumdum proposed it as the metal for the new cent (1907-08) and half-cent (1908), presumably because of the coins' low values. These, along with the B.W.A. tenth-pennies, were the world's first aluminum coins, but it proved an inauspicious debut: the humid climate quickly attacked the aluminum, and large numbers of coins both in and out of banks soon oxidized and turned to powder.

With aluminum foiled, it was decided to make subsequent cents and half-cents in copper-nickel like the 10c. These were struck 1909-10 at the Royal Mint. The half-cent, used mainly in Uganda to replace cowrie shells in local trade, was issued only 1908 (aluminum) and 1909, and is quite scarce today.

Diameters of the cent and half-cent were 22.5 and 20mm; aluminum weights 30gr, 15gr; copper-nickel weights 45gr, 30gr. Again, designs were by an anonymous denizen of the Royal Mint.

It can be seen that, with the introduction of these small values, the white settlers and traders had to do some fast figuring. Previously, the smallest coin was the pice, or 1/64 rupee. This was not terribly compatible with the decimal system, so the rule of thumb was 1½c equals 1 pice. However, this left the white man's thumb on the scale in dealing with the natives, since it worked out to 96c equals 1 rupee. Thus the natives, whose wealth was mostly in small coins, got shorted four cents on the rupee in spite of government decrees to the contrary.

### George V

Previous designs continued unchanged into the reign of Edward's second son, except that now the titles were in the traditional Latin —

GEORGIUS V REX ET IND: IMP:. On the silver, this created an obverse type used on just one other Commonwealth issue — the Canadian 1911 "Godless" coins. The obverse effigy was designed by Sir Bertram MacKenna, an Australian, and engraved by the Janvier pantograph, a machine.

A five-cent coin was now added to complete the series being 25.5mm, 100gr. Again, this was the same diameter as the B.W.A. half-penny, but heavier because of the value difference. (These were also the same dimensions of the old pice, less the hole.)

All coins 1c-50c struck 1911-1919 were from the Royal Mint; The Mint, Birmingham ("H" mark); Imperial Chemical Industries/Kynoch, Ltd. ("K" mark). Mintmarks appear below CENTS on the base coins, under the lion on the silver. (Later coins of the ICI mint were "KN".)

## Coinage and Crisis of 1920

After the war, for reasons unclear from this late date, silver fever seized the world. Coins' intrinsic values rose above face value, so England and many Commonwealth countries cut and kept the silver content in their coins to 50% (thus resulting in increased seignorage later on). India, prohibited from striking less-than-90%-silver coins, made do with base-metal 2-, 4- and 8-anna pieces.

But East Africa was in a bind. Their standard was the silver rupee, and that rose on the world money markets from a prewar 1s.4d. to an eventual 2s.10d.; this meant the dominant English pound was worth only half its former value in East Africa. With the interconnected Empire economy, this could have brought disaster to sundry economic concerns, so the government stepped in and stabilized the rupee at two shillings sterling in February, 1920. Furthermore, it abandoned the rupee as a standard and tied the currency to the English florin, or two-shilling piece equals 48c U.S.

Accordingly, a new coinage was ordered and struck on the florin stan-

dard. The 1c, 5c and 10c were as before; the 25c and 50c (which now read FIFTY CENTS - ONE SHILLING) were 50% silver, due to the silver panic; all read simply, EAST AFRICA, to include the war booty — Tanganyika — on the south. The florin was also 50% silver, designed like the other silver coins, and was 30mm, 180gr. This was larger than the English florin but the same as the Indian rupee (at the time, all three were of equal value). Some florins were struck at the Royal Mint, but all denominations were struck at The Mint, Birmingham, with "H"; some florins and 50c were struck at Ackroyd & Best, Ltd., Morley — the only Commonwealth coins with an "A" mintmark.

Most of these coins, however, were never issued. We are told that the dominant white farmers wanted a coin reading only "ONE SHILLING" as the largest coin for circulation, in order to sucker the natives into thinking it was a florin; they therefore put pressure to delay issuance of the coins. But by the time the coins arrived, the silver rupee was back down to 1s.5d. on the money market. Since it had been fixed at 2s., importation of further rupees was outlawed and rupee notes were demonetized, thus trapping natives who had their savings in such notes.

With the old coinage in such chaos and the new coinage being boycotted, the only thing to do was to start all over again. In May, 1921, the English shilling (24c U.S.) was declared the standard of value, and stocks of the florin-standard coinage were shipped back to England and melted down. It seems the 50c/shilling exists today only in the surviving specimen sets; the 1c-5c-10c are quite scarce, the 25c scarce. The florin, some of which were sent to Uganda, is really

the commonest of the 1920 coinage available today.

## Debased Recoinage

New coins on the shilling standard (100c equals 1s.) were issued late in 1921. There had been a plot to get a large, debased shilling which would look like a florin, and at the same time to declare all old coins to be cents of a shilling, thereby halving the value of florin/rupee-standard coins held by anybody not in on the fun. The exchange plot was put down, but the specifications for the new silver stayed the same.

Therefore, the new shilling was ludicrously oversized at 27.5mm/120gr., one mm. smaller than the English florin. The 50c was 21mm/60gr, which at least maintained the weight relationship; the coin read FIFTY CENTS - HALF SHILLING. To compensate for the inflated size, the coins were just 25% silver. But it must be realized that the size difference made it easy, in an inverse way, to tell new-standard coins from old: the bigger coins were worth less.

So that the new minor coins might be easily distinguished from earlier issues, the 1c, 5c and 10c were struck in bronze instead of copper-nickel. As tenths rather than twelfths of a shilling, the 10c and 5c were still worth more than the penny and halfpenny, so weights were kept at 175 and 100 grains.

However, the cent's value was now exactly halfway between the old cent and half-cent, so in an odd sort of compromise, it was reduced to 20mm/30gr, the same dimensions as the copper-nickel half-cent.

Parsons says these coins were struck in copper, changing to bronze some twenty years later. However, I find it impossible to believe that the Royal Mint would resume coining in a metal which over 60 years before had been deemed unsuitable for mass coinage. Rather, Parsons was apparently misled by the weight change and assumed the heavier pieces were copper.

That being the case, the initial bronze composition was the classic 95% copper, 4% tin, 1% zinc. In 1923, English bronze changed to 95.5% copper, 3% tin, 1.5% zinc, a more golden-colored alloy which was easier to handle in the mint. This change came to the East African bronze after the coinage lapse of 1926-27.

Shillings and 50c were struck 1921-25, the bronze 1921-36 at the Royal, Birmingham and King's Norton (ICI) mints, "H" and "KN" marks being placed as before.

## Edward VIII

Five and ten-cent coins were issued from all three mints in 1936 reading EDWARDUS VIII REX ET IND: IMP:. But in December of that year, the new king abdicated to marry Mrs. Wallis Simpson, an American divorcee (and probably prolonged his life by doing so). This caused people to save nearly all of what little Edward VIII coinage that had been issued, so that what seemed like a future rarity then is still quite common today.

(A real rarity was created with the muling of this ten-cents obverse with the B.W.A. penny reverse. But that is properly a B.W.A. coin and does not belong in this series.)

## George VI

The 25%-silver shilling and 50c of George VI have the distinction of being the only Empire coins to bear the full Latin spelling of the Indian titles: GEORGIUS VI REX ET INDIAE IMPERATOR. The obverse portrait of

the King in Imperial crown is by Percy Metcalfe of London.

World War II dealt the bronze coinage a double whammy. Since the Japanese invasion of Malaya had limited world tin supplies, the coins' composition was changed to 97% copper, 2.5% zinc, 0.5% tin, of April 14, 1942. At the same time, the weights of the 5c and 10c were reduced to 87.5gr and 145.8gr, the same as the B.W.A. halfpenny and penny. Since this also expedited manufacture, these denominations were permanently kept at the lower weights.

(I might point out that this weight/metal change was similar to the one in Ceylon, where in 1942 the cent's weight was halved and the composition changed from copper to bronze. All previous Ceylon ¼c-1c were COPPER, not bronze, so Yeoman, Remick, et al. please revise. And while you're at it, how about a separate type designation — as on the Ceylon thick & thin cents — for these noticeably thinner 5c and 10c?)

Five-cents through shillings of this first type were struck 1937-1946 at the three English mints ("H," "KN") and, due to shipping difficulties during the war years, at Bombay, India ("I"), and Pretoria, South Africa ("SA"). The 1c was struck 1942 only but is extremely common today. Presumably, 5c and 10c of both weights were struck during 1942 at the various mints.

After India gained independence in 1947, the King of England was no longer Emperor of India. Accordingly, beginning in 1948 the legend read simply *GEORGIUS SEXTUS REX* — King George the Sixth. Also at this time, England was scrounging all the silver it could find in order to pay off lend-lease debts to the United States, so Colonial subsidiary coins changed from silver to copper-nickel. The paltry 25% silver content of the East African shilling and 50c was eliminated, and the new coins were the first struck in copper-nickel for the country since 1920.

All five denominations were struck 1949-52 at the usual three mints, with the usual two mintmarks. The bronze coinage was now struck with the prewar 95.5-3-1.5 composition.

Remick notes four reverse die "types" for the shilling, but two of these correspond to obverse type changes, and the other two are simply a result of the Bombay Mint touching up the working die during the World War II strikings. Remick also notes that various issue show less or more of the intended mintmark, due to defective die preparation.

## Elizabeth II

In a rather fitting, full-circle gesture, the legends on the last regal East African coins were in English, as were those on the 1906 first decimal issue. Also for the new reign, designs on the bronze coinage were slightly rearranged. Reverses being as before, the obverse

legend *QUEEN ELIZABETH THE SECOND* now read almost entirely around the outside of the coin. To make room, the central scrolls were shortened and the denominations pulled up; *ONE CENT* now read halfway around the central hole. Moreover, the crown was changed from an Imperial to a Royal Crown, an indication of the declining status of the British Empire.

The 50c obverse carried the new inscription around a portrait of the Queen in Imperial crown by Cecil Thomas of London. The 1c, 5c, and 50c were struck 1954-63, the 10c 1956 only, as the usual three mints, with the usual two mintmarks; on the 1c the mintmark was now above the "C" of *CENTS*, just under the hole. No East African shillings were struck after 1952.

After 1963, Kenya, Uganda, Tanganyika and Somaliland were granted independence one by one. Although regal East African coins continued in use a while longer, almost all have now been phased out as the new republics have struck their own, non-regal coinage.

The cost of all goods and services has been increasing for many years because of inflation and other factors. The cost of operating the ANA has risen, but the dues have not been raised since January 1, 1964. Since the ANA is supported mainly by dues paid by its members, the board of governors has found it necessary to raise the dues to \$8 per year, effective January 1, 1973.

Over 6,000 members requested the first section of the ANA library catalog. If you have not yet asked for your copy, you should do so at once. Remember, it will be sent (without charge) ONLY to those members who request it on the yellow form in the April issue of *The Numismatist*. The preparation and printing of this section of the ANA library catalog, our first library catalog since 1962, was made possible through the generous donations of ANA Member Harry Bass, Jr. and the Sidney Printing & Publishing Co.; the hard work of our librarian, Geneva Karlson; and the special help of Executive Director Ed Rochette, Governor Glenn Smedley, and the entire ANA headquarters staff.

The ANA Certification Service is now in full operation. Its success will depend on your use of its services. If you have coins which you wish certified, send them to ANACS, PO Box 87, Ben Franklin Station, Washington, D.C. 20044, in accordance with the instructions given on page 881 in the June issue of *The Numismatist*.

The collecting of coins, paper money and medals of countries other than the U.S. has grown at a great rate. In June, the ninth annual Convention of International Numismatics was held in Los Angeles, Cal. This is the largest annual show entirely devoted to non-U.S. numismatic items and is sponsored by the Council of International Numismatics. James J. Waldorf is President of this Council which is composed of 14 organizations dedicated to the study of non-U.S. coins, paper money and medals. The convention featured an education program, a large and active bourse and an outstanding auction. Many of the 14 participating organizations held meetings during the convention. It was my privilege to speak at the combined dinner meeting of the Azteca Numismatic Society and the Maximilian Historical and Numismatic Society. My subject was Modern Mexico, with special emphasis on the life of Benito Juarez, one of Mexico's great heroes. This year is the 100th anniversary of Juarez's death and is being celebrated as the Year of Juarez throughout Mexico.

This is my last opportunity to invite you to attend our 81st Anniversary Convention in New Orleans, to be held at the Jung Hotel August 15-19. All the plans have been made. An outstanding program awaits you, including an educational forum, interesting exhibits, a large and varied bourse, as well as many cultural and entertainment offerings of the New Orleans area. Jimmy Cohen and his committee have gone all out to stage what we believe will be the best ANA convention yet. All we need is you!

## ***That Will Be One Half Cent, Sir***

Did you ever stop to think just why the United States needed half cent coins in the early decades of its history?

The first such coins were struck in Philadelphia by the newly created United States Mint in 1793. Issues were contained intermittently through 1857. At that point the Mint Act of 1857 terminated production of the denomination and declared that it was no longer valid as legal tender.

The usage of a half cent coin indicates that some items must have been priced in some form of fractions. Undoubtedly, these prices were a carryover from the earlier usage of the half penny coin in England, although there was no easy conversion from English coinage to the American decimal system.

Perhaps an even more compelling reason for a half cent was the wide acceptance of the Spanish milled dollar as a stable unit of specie (hard money) in the New World. This dollar was a unit of eight reales. The same style of Spanish coins was also minted in denominations of four reales, two reales and one real. In the absence of these minor coins, the dollar was cut into pieces. One half of the dollar represented four reales or four bits and could further be cut into two quarter pie-shaped pieces equal to two bits. A further cut produced pieces of one bit each known as picayunes, which were equal to  $12\frac{1}{2}c$ . These familiar and readily available coins formed the basis for the pricing of many commodities.

Being a banker,\* coins have always fascinated me and I have searched for more information on prices.

One possibility was the use of a half cent rate on postage. But, I found that our earliest postage stamps were printed in 1847, almost at the end of the life of the half cent coin. The first denominations were five cents and ten cents. The half cent stamp was not introduced until 1922, long, long after most people had forgotten the coin.

We do find one mention of Domestic Letter Rates, which is of interest. In 1847, there is quoted a postal rate of  $12\frac{1}{2}c$  per half ounce for mail from the east coast to or from Havana, Cuba. The same rate also prevailed along the Pacific Coast. These short lived rates expired in 1848.

I then began a search through early periodicals and other documents and found some most interesting advertising and references.

"The Herald" was a newspaper published in New York City. The issue for

December 14, 1835 (Vol., No. 91) provided the following information. A hosiery ad quoted prices as  $6\frac{1}{4}c$  a piece, and another merchant quotes  $12\frac{1}{2}c$ .

The "Library of Useful Entertainment" was shown as being available at  $12\frac{1}{2}c$  per number, or on a semi-monthly subscription at \$3.00 per year.

An exhibition was scheduled for display of the marvelous American Hydro-Oxygen Microscope. Admission: Adults 25c, children  $12\frac{1}{2}c$ .

Under the heading of new shipments of books available, was a novel "Peter Simple" by Captain Marryot at the low price of  $37\frac{1}{2}c$ .

In addition to prices, there are interesting references to money to be found in the various notices so common in the newspapers of that era. The following are typical:

"Small change. Grovers, tavern keepers, and others in want of small change, such as half dollars, quarters, schillings, sixpences, also cents, may have it in any quantity by applying at the Herald Office." (This is of interest because in 1835, some 59 years after the Declaration of Independence, we still find schillings and sixpences in circulation.)

"J. Thompson, No. 12 Wall St. Stock and Exchange Broker. Exchanges of all kinds of uncurrent money at the lowest rates. All kinds of gold and silver bought and sold. Bank of England Notes bought and sold. Thompson will collect and negotiate on most of the commercial places in the States and Canadies (sic)."

"Lost - a purse with 18 Mexican Doubloons."

The preceding prices were in 1835. At this point the half cent coin was beginning to lose its popularity. From 1793 to 1840 some 7,428,091 of these coins were minted. But from 1840 to the end of minting in 1859, only an addi-

\*Mr. Duphorne is senior vice president of the First National Bank of Albuquerque, N.M. —Ed.

tional 544,510 were prepared at the Philadelphia mint.

In 1846 prices were still being quoted in fractions. The New York Tribune of August 20, 1846, Vol VI No. 114 Whole No. 1669, contains the following insights on money.

"Delivery of the Tribune to subscribers  $12\frac{1}{2}c$  a week."

"Advertising rates 5 lines or less, first insertion 25c, each subsequent insertion  $12\frac{1}{2}c$ ."

"Meal for sale at  $\$5.12\frac{1}{2}c$  per barrel."

These are other items of interest.

"William Armstrong Bertell picked up twice for passing counterfeit \$5 bills on the Warren Bank of Danvers, Mass."

"\$10 Reward - Lost on Friday last a pocket wallet containing \$23., one bill of \$10, two of \$5 each and one of \$3."

"Pennies, Pennies in rolls of fifty each for sale at the Tribune office."

"Received a shipment of late books

'Typee, a Peep at Polynesian Life.' 2 Vols  $37\frac{1}{2}c$

'Douglass Jerrold's great work "St Giles and St. James"  $37\frac{1}{2}c$ '

'Dombey and Son No. 8' Price  $12\frac{1}{2}c$  and  $6\frac{1}{4}c$

'The Greatest Plague' Part 3 -  $6\frac{1}{4}c$ ."

Other newspapers of the first half on the nineteenth century show additional items priced in half cents. Or perhaps you would prefer to think of these values as being quoted in baits as a carry over from the pieces of Spanish coins.

Sheet music was offered at  $12\frac{1}{2}c$  for the latest editions. Salt was 25c a bushel and  $12\frac{1}{2}c$  a half bushel. Rice at dockside sold for  $\$3.12\frac{1}{2}$  per hundredweight. Lottery tickets were offered at \$9. Fractional tickets were also available, such as a half, a quarter, or an eighth. The latter sold for  $\$1.12\frac{1}{2}$ .

Searching through old newspapers and periodicals is a most interesting experience. But a most surprising

source of information was some manuscript documents from the New York Supreme Court in the 1840's. Costs for court proceedings are listed in detail. An oath on a document cost  $12\frac{1}{2}c$ . Oath and service on a lunatic is listed at  $37\frac{1}{2}c$ .

Further research turned up a most unexpected book. It was prepared and published under authority of acts of congress, passed on the second day of March, 1933 and on the third day of March, 1843.

The volume is entitled:

American Archives:

Consisting of a collection of authentic Records, State Papers, Debates, and Letters and Other notices of Publick Affairs,

The Whole Forming  
A DOCUMENTARY HISTORY  
of the

causes and accomplishment of the American Revolution and of The Constitution of Government for the United States

to

The Final Ratification Thereof.

These archives were developed in six series and each required several volumes to complete. The one which I acquired covered the period from August 12 to December 31, 1776. It consists of 945 large pages, nine by  $13\frac{1}{2}$  inches.

This book proved to be a prolific source of prices paid for commodities and services. In many places, prices are quoted in pounds and shillings and pence and even in quarter pence. Other authorized expenditures are in sons and Spanish milled dollars.

I fully expected to find many references in values of half cents. But, absolutely none were to be found. However, this should not really be any surprise since our decimal systems and the range of denominations for our coinage was not to be defined by our government for another 16 years.

Probably the most frequent values quoted were in ninetieths of a dollar.

And so ends my story of half cent values. And here begins my search for coins and currency valued  $1/90$  dollar.

## FEATURING FAKES

DO YOU HAVE THE ORIGINAL?

UK's Peter Seaby, at this spring's General Assembly of the International Association of Professional Numismatists (IAPN), obtained approval of this motion:

"At this 21st General Assembly of the IAPN, reports have been received from many of our members concerning the increasing number of counterfeit coins being circulated, and also of a comparatively new phenomenon - imitation coins being made for sale as 'reproductions' for collectors.

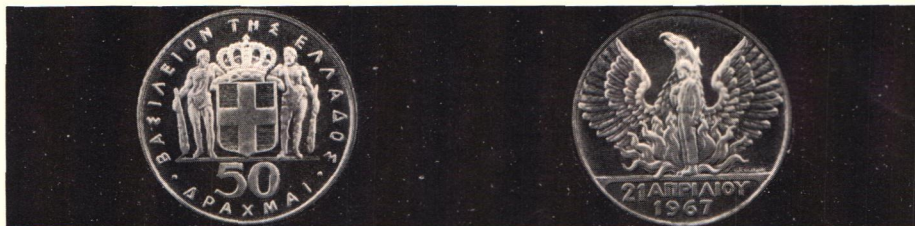

"Forgeries of current coin involves fraud and financial loss on governments and the public. Counterfeits of ancient and non-current coins are in the nature of forgeries of historical documents, are again likely to involve fraud and should be suppressed by legislation.

"It has been found that in many countries legislation is inadequate for the prosecution of those who manufacture, offer for sale, import or export counterfeits; particularly if imitations of foreign coins are involved, or ancient and modern coins which are no longer legal tender.

"This Assembly of IAPN (1) expresses its concern at the increase in the counterfeiting of both modern and ancient coins and the manufacture of so-called 'reproductions' of coins struck in metal for sale to collectors. Many thousands of such fabrications are now being produced annually.

"(This Assembly)(2) notices that most governments have legislation which is adequate to deal with any counterfeiting of their nation's current coinage within their own territories. It is clear, however, that legislation does not always adequately cover the counterfeiting of foreign current coins nor their sale, importation, and exportation; nor the counterfeiting, export, import, or sale of domestic and foreign coins which are no longer legal tender.

"(This Assembly) (3) invites all governments to give urgent consideration to reviewing their own legislation on counterfeiting in view of the greatly increased risks of fraud, in order that manufacture, exportation, importation, and sale of

all counterfeit coins may be eliminated."

Just such proposed legislation is H.R. 10600 (Hobby Protection Act) now in the U.S. House of Representatives. The only way to get that bill passed is for you to write or phone your own Congressman to support H.R. 10600.

In the United States we still have a handful of persons in the numismatic hobby who are scathingly vocal in their opposition to any such legislation; they oppose the establishment of ANA's Certification Service (ANACS) in Washington, D.C., and they oppose ANA's 1972 "get tough" by-laws amendment and directive.

It's my opinion that, in most instances of such denunciation of efforts to clean up our hobby, it's a case of "the hit dog is the one which yelps!"

You just might ask such an opponent of this now international effort to clean house, "What are you afraid of?"

H.R. 10600 will instruct the U.S. Federal Trade Commission to enforce a provision requiring all reproductions, replicas, facsimiles, copies, counterfeits, to have incused such a word as COPY, and also to have incused the date in which the counterfeiter manufactured his faked coin.

Under the Hobby Protection Act the four fakes you see here will be illegal ...but they aren't today! So write your Congressman!

Before I close this installment, I want to voice another pet peeve of mine ...and that peeve concerns such fakes being called "re-strikes."

Cast counterfeit USA gold dollars have been advertised as re-strikes.

The 1835 English East India Company "two mohurs" gold coin shown was sold as a re-strike, although not coined with the original, official dies.

The word "re-strike" should be applied, I'd think, only to a coin struck from the original, official dies, but struck during some year later than the date appearing on the coin.

The Federal Trade Commission, when it gets around to writing fair trade practice rules for the numismatic field, also should incorporate the outlawing of mis-use of the word "re-strike."

You'd think an industry or a hobby, comprising mature persons, would be able to police itself, set its own standards and adhere to them. But, somehow, in very few industries have the members policed themselves ... and their failure to do so then brings enforcement by some government agency. No exception will be numismatics!

## Sir Walter Raleigh - French Style

The Paris Mint has struck an 81mm medal honoring Sir Walter Raleigh. Designed by Jean Asselberg, it is unusual in that the obverse legends are in English, the reverse in French. The obverse bears a portrait of the famous navigator with a small anchor and crossed plume noting his dual career to the left. To the right is an executioner's axe recalling his decapitation on the order of James I in 1618. Terminal dates appear at the bottom. Raleigh's coat-of-arms and his ship appear on the reverse with French legends identifying Virginia and North Carolina. Further information in regards to price and availability is obtainable from the Administration des Monnaies et Médailles, 11 quai de Conti, Paris VI, France.

# NEW & RECENT ISSUES

by Ernst Kraus, LM 129

It is the important duty of *The Numismatist* to record and illustrate new coins. To accomplish this, members in the United States and abroad are invited to submit new issues to Ernst Kraus, Room 939 (include room number in address), 393 Seventh Ave., New York, N.Y. 10001. Coins will be photographed and returned as soon as possible, and a credit line will be given to anyone assisting.

## Ajman

One of the Trucial States (also Trucial Oman or Trucial Coast), the Government of Ajman and its Dependencies have issued this FAO coin which probably will be considered as non-circulating legal tender. Coins issued which recognize the Food and Agriculture Organization of the United Nations serve as daily reminders of national and international efforts needed to meet the challenge of world food development. They also provide, through seignorage, funds to help finance such development.

## Mexico

Benito Juarez (1806-1872) was orphaned at age three when his parents died. He was left to the care of an uncle and worked as a household servant in Oaxaca during his youth. He became the dominant figure in Mexican history from 1856 to 1872. Juarez tried to destroy Mexican feudalism and make his country into a democratic, federal republic. He was determined to save Mexico from both foreign and internal enemies. His objectives weren't completely achieved, but the Reform movement brought the *mestizo* (mixed European and American Indian ancestry) to power. At the end of this period the Mexican nation truly came into being. This coin Commemorates the centennial of Juarez's death.

### Mongolia

The Mongolian People's Revolutionary Party held the 16th congress in Ulan Bator in June of 1971. The fifth five-year development plan (1971-1975) was adopted with main aims being to continue toward reasonable industrialization and to increase livestock to more than 25 million head by 1975. ## Our Museum Collections

### The H.L. Moon Collection of Lincoln Medals

Medal collectors will be pleased to hear that we have acquired a beautiful group of Abraham Lincoln pieces, a gift of Mrs. Zoe E. Moon of White Salmon, Washington. The collection was formed by her late husband, Dr. H.L. Moon, who collected United States coins and Lincoln medals for some forty years. Dr. Moon had acquired a number of the Lincoln pieces years ago from the estate of Dr. Russell H. Renz of Detroit, Michigan.

Many types are represented with pieces that range in size from tiny 10 mm. medalets to large 76 mm. medallions. There are striking Lincoln busts by Barber, Morgan, Pacquet, Pratt, Key, and many others. Included are the well known commoner types such as the 1909 Lincoln Centennial pieces, plus many unusual items such as scarce ferrotypes and medals from the 1860 and 1864 presidential campaigns. There are advertising tokens, World Fair souvenir medals from most years, and even scarce wooden medals.

Especially noteworthy are the many metal varieties and trial pieces of several types, some of which are very scarce. We have virtually a complete range of these in such types as the little Lincoln High School pieces of 1923, the Milwaukee Boy Scout medals of 1924, and the Ethan Allen Memorial Home and Zoo pieces. These types are represented in metals ranging from lead, aluminum, pewter, white metal and German silver through the copper, bronze and brass group, to beautiful silver pieces.

The collection will be displayed this coming winter, possibly in connection with a Lincoln-Kennedy exhibit that we envision for next year. Our medal collection is being studied so that we may add pieces from our former acquisitions to the H.L. Moon Collection and continue to build it just as Dr. Moon would have. If you would like to add a Lincoln medal to the collection, we would be glad to hear from you, and I can supply you with a list of the pieces that we have, by King numbers. We would be especially pleased to receive political campaign items, pieces from some of the more obscure fairs and conventions, and single recent proofs that are part of presidential medal series.

We are fortunate to have the opportunity to preserve and build Dr. Moon's collection, and we are grateful to Mrs. Moon for her kindness and generosity. If you are interested in seeing or studying the collection, be sure to come and visit us.

### CENTURY OLD NOTES

#### Alaska Antiquities and Curiosities

There were two varieties of Schnaps money, one good for a full drink and the other good for a half drink. These schnaps marks were abolished several years since. The officers of the late Russian American Fur Company were, by contract, entitled to a certain number of drinks, according to their rank and station. The number of marks varied from thirty to ninety drinks per month, paid together with the salary, entitling the receiver to the stipulated daily number of drinks at a certain bar established for this purpose. The half pieces were given to Indians. — *Mason's Coin Collectors' Magazine*, 1872.

## ADMIRAL DEWEY ADVERTISING CARDS AND SOME RELATED PIECES

George Dewey (1837-1917) was born at Montpelier, Vt., on Dec. 26, 1837. He was commissioned lieutenant in April 1861, after graduating in 1858 from the United States Naval academy, Annapolis, Md. He became a commander in 1872, was made captain in 1884 and commodore in 1896.

In April 1898 he was ordered to "capture or destroy the Spanish fleet" then in Philippine waters. The Spanish ships were all sunk or destroyed without the loss of a single US seaman.

## FOREWARD

William Dewey, one time Librarian-Curator of the American Numismatic Association, has spent the better part of 40 years collecting numismatic material pertaining to his distant relative, Admiral George Dewey. His notes form the background data for this catalogue. The notes have been kept in an orderly fashion, and are most complete, being up-to-date at all times.

Mr. Dewey's collection consists of advertising cards, medals, tokens and plaques, numbering approximately 400 pieces, all relating directly to the Admiral. This is without a doubt the largest collection of Admiral Dewey numismatic items in the world. Other than his, it is believed that there are only a limited few collections of over 20 such items. At the present time the known sizeable accumulations of Dewey pieces are:

1. American Numismatic Society
  2. Museum of the United States Naval Academy
  3. George T. Cunliffe, Jr.
  4. William S. Dewey
  5. Dr. George J. Fuld
  6. Arlie R. Slabaugh
- There are, however, some pieces held

outside of the large accumulations above. Reference to ownership of specimens listed in this catalogue are abbreviated as follows:

ANS = American Numismatic Society

WA = William Anton, Jr.

GTC = George T. Cunliffe, Jr.

WSD = William S. Dewey

DF = Dan Frost

GJF = Dr. George J. Fuld

JH = Jack Howard

ACK = Arthur C. Knight

NA = U.S. Naval Academy

MS = Max Schwartz

ARS = Arlie R. Slabaugh

JRN = Jack R. Nestle

This catalogue is the first in a proposed series on the numismatic items pertaining to Admiral Dewey. Others to be published at a later date are:

except for those cards requiring variants. Details of die varieties are covered in Tables III and IV of the basic article. Collectors who desire to classify their specimens by die varieties should refer to those tables for necessary identification.

An explanation of the method used in listing the cards follows:

OBV. A general description of obverse details.

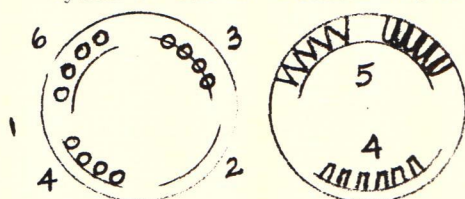

REV. A general description of reverse details.

METAL: Most of the Dewey cards are of gilded copper or aluminum. The copper pieces were normally issued gilded; those that have no gilding are usually worn pieces. Brass was used in a few cases. In one instance (Omaha), bronze is mentioned. Bronze in the 1890's was not very well defined as to specific composition numismatically.

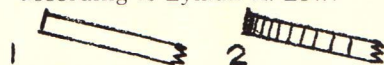

SIZE: The first dimension given is millimeters diameter of the specimen. T.A.E. refers to thickness at edge, in millimeters.

WEIGHT: Weight is expressed in grains and in most cases is approximate, as there is wide variation between specimens of the same card.

BORDER: Border designs are numbered according to the system used by Lyman H. Low as indicated below:

EDGE: Edge types are numbered also according to Lyman H. Low.

ISSUED: The date of issue is presumed to be 1899, when not otherwise indicated on a card.

RARITY: The scale of rarity used in this catalogue is related to the number of specimens thought to exist, based on the authors' combined experience over the years, as follows:

Rarity 3	= 501 to 2000 specimens
4	= 201 to 500
5	= 76 to 200
6	= 21 to 75
7	= 11 to 20
8	= 5 to 10
9	= 2 to 4
10	= Unique

MADE BY: Where the manufacturer could be determined, it was so listed. Whitehead & Hoag Company of Newark, New Jersey made the majority of the Dewey cards.

COLLECTIONS: The collections studied are noted above. Ownership of each card is indicated.

## PREFACE

The authors appreciate that this listing is probably incomplete, despite efforts to make it as all-inclusive as possible at this time. Anyone having knowledge of an advertising card pertaining to Admiral George Dewey that is not covered in this catalogue should report details to:

Mr. William S. Dewey  
11B Snowberry Lane  
Whiting, N.J. 08759

ADVERTISING CARDS bearing the portrait of Admiral George Dewey of Manila Bay fame (1898) have appealed to discriminating numismatists since their first appearance just before the turn of this century. Due to their exceptional historical significance, they rank among the most prized of all United States merchant's tokens.

A trial list of the "Dewey" cards was published in the March, 1939, *The Numismatist* magazine. This new appraisal takes into account all that has been learned about these tokens since that time. It will be apparent to the most casual reader that the current listing has been considerably enhanced by the discovery of many new varieties and types that were unknown to the author of the 1939 paper.

The original article correctly pointed out that a majority of the Dewey cards were distributed at the time of the welcome home celebrations for the Admiral in the fall of 1899 and shortly thereafter. The first of those affairs occurred at New York City in September, 1899, and was commemorated by a profusion of numismatic memorabilia. This was followed, in turn, by less pretentious but no less enthusiastic celebrations at Montpelier, Vermont (his birthplace), and at Boston and Washington, D.C. Indeed, every city, town and hamlet across the land joined in the excitement of the day, as the variety of locations represented in the store card series clearly demonstrates. Enterprising merchants and businessmen were quick to capitalize on the magic of the Dewey name by distributing pocket pieces bearing his likeness on one side and their advertising message on the other.

The total number of Dewey Merchant Tokens struck will, of course, never be known and cannot even be accurately estimated. Based on sheer guess, it could possibly have exceeded 300,000 pieces, not an inconsiderable output for those days.

The Kirkman cards alone account for an issue of 100,000 tokens, according to the company's own record. The Frank Tousey interests, publishers of dime novels, claimed in contemporary advertising that 50,000 of their "Fred Fearnot - Admiral Dewey" pieces had been struck. Other cards, such as the Syra-

cuse Plow, Kann Department Store, and Vetter, probably saw fairly wide distribution. A few, like the Dakin Business Institute, Eagle Cotton Gin, and the National Protective Society, were most likely issued on a more modest scale. A few, it now appears, may be in the unique class. In point of rarity at present, the Dewey cards run from relatively easy to virtually impossible to obtain. (The W.S. Dewey collection, presumably the most complete, is still lacking seven major types after 40 years.)

The number of advertisers represented in the series has increased from 18 in the 1939 list to 33 now. Currently included are tokens of the Iowa State Fair (August-September, 1899) and the Omaha, Nebraska, Exposition of the same year. These were known at the time of the original listing but were arbitrarily omitted. The decision to include them now is based on the premise that they appear to have been intended primarily as advertising items. The Ward Stationer card (No. 17 on the 1939 list) has, on the other hand, been deleted since it is more of a street badge to attach to the clothing than an advertisement.

The number of firms represented by cards executed by the Whitehead and Hoag Company of Newark, New Jersey, has grown from 11 in the 1939 list to 19 now. At least 21 obverse dies were employed to complete the various orders. All were taken from a master Hub (No. 1) that portrays Admiral Dewey in uniform facing to the right. Lettering was added to the dies as required. The legends generally differ only in the position of the letters in respect to the bust. As will become apparent, this feature makes identification of individual dies in the Whitehead & Hoag series a somewhat tedious task.

The known number of dies used in preparing the Dewey cards has

increased from 19 obverse and 19 reverse in the original list to 32 obverse and 39 reverse in the present listing. In the Kirkman group, 15 different obverse dies have been identified as compared with only five reported in 1939. This card, by far, required the greatest number of dies but additional varieties may yet be discovered. According to the Kirkman people, only one reverse die was utilized but this seems to be out of accord with the facts. There is adequate evidence that numerous dies may have been employed in striking this issue. The execution of 100,000 pieces would in itself call for more than a single die. There is retooling evident on some pieces, and minor variations in lettering on others. Finally, many of the Kirkman reverses exist with die cracks, the final step in the life of a particular die. It is entirely possible that the inconsistency between current evidence and the Kirkman statement may be due to a misunderstanding by the company of the difference between a hub and a die. In any event, differences in reverse dies on the Kirkman cards are so insignificant that no attempt has been made to identify them in this paper.

The overall arrangement of the tokens is alphabetical by advertisers as was the 1939 listing. However, because of the many additions, it has been necessary to renumber the entire series. Unfortunately, this will inconvenience those

who have previously attributed their specimens according to the original numbering. In consideration for this problem, the new number has been cross-referenced to the old wherever applicable so that conversion should be a relatively simple process.

The numbering system follows the 1939 plan in which each advertiser is assigned a whole number in alphabetical sequence. When more than one variety or type is known, a suffix letter is appended to the identifying number. For example, the Syracuse Plow card (No. 26) has two distinct obverse die varieties which are separately identified as No. 26a and No. 26b.

Die cracks appear with considerable frequency in the Dewey card series. In general, these are ignored for purposes of this listing except where it is felt that such references might aid in identification of the variety.

Table I lists all known varieties and types of the Dewey cards now known in their alphabetical order according to the advertiser's name. Hubs and dies are identified by a continuous number series similar to that used in the 1939 listing. By this means, cards of different companies that are struck from the same dies can be readily recognized. Thus, it will be seen that the Barrister card (No. 3a) was struck from the same obverse die (No. 3) as the Houston (No. 13), the Meara (No. 20), and the Tyler & Smith cards (No. 29a and No. 29b).

## NOTES

General - Cards struck from obverse Hub No. 1 were manufactured by the Whitehead & Hoag Company; those from Hub No. 2 were probably executed by Koch & Company; and those from Hub No. 3 were done by C.H. Hanson. Sources of Hubs No. 4 and No. 5 are uncertain. Hubs No. 7 and 10 are not hubs at all; details on the two cards were *printed* on the celluloid facing of each. Cards struck from obv. Hubs No. 8 and No. 9 were made by James Murdock. The maker of Hub No. 6 was possibly C.H. Hanson.

Note 1 - The reverse of this card was struck from the same die as the preceding Griesheimer card (No. 10a). Dirt on the working die obliterated:

- a. Period after date "1899."
- b. Comma after words "State St."
- c. Dot over "i" of "Clothier."

Note 2 - The reverse of this card was struck from the same die as the preceding Kann card (No. 15a). Dirt on the die obliterated:

- a. Porthole on bow of ship near waterline.
- b. Period after the word "Olympia."

Note 3 - All Kirkman reverses are considered to have come from a single hub for the purpose of this paper, as the position of letters is the same for all specimens. However, lettering details show minute variations from card to card, suggesting that a series of dies was employed. Also, die cracks in widely varying patterns are commonly found. To distinguish between these trivial differences would present great difficulty and contribute nothing of value to the listing.

Note 4 - The reverse of this card is identical to the reverse of the Time Souvenir card (No. 27) except for the name and address of the issuing company in the central circle.

Note 5 - Obverse of this card was struck from the same die as the preceding Marble Hall card, but dirt on die obliterated J in N.J.

Note 6 - Reverse of this card was struck from the same die as the other Marble Hall cards, but dirt on the die eradicated the period after the date, 1899.

Table II regroups the list by obverse dies, and indicates the most probable sequence in which the dies were employed by the manufacturer, based on the author's own observations.

## NOTES

1. This obverse die was also used for a Dewey Good Luck Token.

2. Reverse die same as preceding card (No. 10a), altered as specified in Table I.

3. This obverse die was also used for other Dewey Tokens.

Attribution of the many die varieties of the Whitehead & Hoeg cards (all taken from obverse Hub No. 1) is accomplished by relating the position of lettering in the lower legend to the bust. The test centers on locating the letters with respect to imaginary lines drawn through the epaulet as indicated in the photograph:

This is essentially a refinement of the process recommended in the 1939 paper which provided for locating the position of letters in the legend by reference to the armpit of the Admiral's coat. That procedure proved inadequate to differentiate between several dies hav-

ing closely similar armpit-legend characteristics.

It will be noted that a horizontal line drawn through the underside of the top braid of the epaulet will cut through the legend in the vicinity of the first two letters of the word "ADMIRAL." Similarly, extension of a vertical line between the fifth and sixth braided cords of the epaulet will cut through the legend in the vicinity of "GEORGE." In most all cases, this line will also pass through the maker's signature "W. & H. CO., NEWARK, N.J." In the example shown, the horizontal line passes through the letter "A" of "ADMIRAL" while the vertical line cuts through "H" of "W. & H. CO." and passes to the left of "G" in "GEORGE."

Table III defines these criteria for each of the cards in the Whitehead and Hoag series, all of which were struck from obverse Hub No. 1. Reference to the table permits ready identification of any particular die variety, except for one situation (Dies No. 6 and No. 12) where the procedure must be supplemented for positive attribution. This is accomplished by extending another imaginary line along the front edge of the Admiral's coat to the border and noting its alignment with respect to letters of the word "DEWEY" in the lower legend.

Note - An imaginary line drawn along the front (button) edge of Dewey's coat will pass left of the "D" in "DEWEY" on Die No. 6, and to the right of the same letter on Die No. 12.

Cards made from obverse Hubs No. 2 and No. 3 of other manufacturers also require special identification to distinguish between their dies. These involve obverse Dies No. 3 and No. 4

from Hub No. 2, and Dies No. 5 and No. 10 from Hub No. 3. In the first case, identification is readily established by reference to certain distinguishing characteristics of the lettering in the legend. In the latter case, a millimeter measurement from the word "DEWEY" in the legend to the hair on Dewey's forehead serves to identify the variety. These details are specified in Table IV below:

# TABLE IV

## IDENTIFICATION OF DIE VARIETIES FROM

### OBVERSE HUBS NO. 2 & NO. 3

Hub No.	Obv. Die No.	Identification
2	3	Apostrophe midway between "Y" and "S" of "COUNTRY'S" has an extraneous spike on it. Bottom left serif on "N" in "COUNTRY'S" and top left of "Y" is missing. Bottom right serif in "M" of "ADMIRAL" is also missing.
2	4	Apostrophe in "COUNTRY'S" touches "S." Bottoms of "R" and "I" of "PRIDE" are connected. Bottom of "A"s in "ADMIRAL" are partly filled in. Tops of "E" and "Y" in "DEWEY" are connected by a fine line (probably an engraving tool slip).
3	5	"D" of "DEWEY" is 2¼ millimeters from lock of hair on forehead.
3	10	"D" of "DEWEY" is 5 millimeters from lock of hair on forehead.

The Syracuse Plow, Frank Tousey, and Tyler & Smith cards each employed more than one reverse die. The Plow card reverse occurs in one case (No. 26a) with a comma after the word "SYRACUSE," and in the second case (No. 26b) with a period. The first variety is found coupled with obverse die No. 26, the second with obverse die No. 2, thus providing positive identification.

The Tousey cards (No. 28) were issued with three different obverses

combined with five reverses. In this situation, the various reverse die varieties can be identified by checking the lengths of the legend "FRED FEARNOT." (including the period at the end). These measurements will be found to be as follows:

- Variety (a) 19½ Millimeters
- (b) 19 Millimeters
- (c) 22 Millimeters
- (d) 21 Millimeters
- (e) 18½ Millimeters

The couplings of obverse and reverse dies are specified in Table I.

The Tyler and Smith cards (No. 29a and b) are readily distinguishable from each other as their reverses are distinct types rather than die variations. Descriptions are given in the listing.

There has been some reluctance on the part of the authors to estimate the relative rarity of the tokens in this series. However, a decision was made to include such information on the basis of their combined experience over a period of many years of watching the market. In this regard, it will be noted that certain items, such as the Kirkman cards show up with considerable regularity. On the other hand some die varieties of that card may be next to impossible to obtain at this late date. For this reason, the wise collector will not concern himself over die variations, but rather expend his energies on acquiring basic types. And there is the added impetus that a heretofore unknown token in the merchant's token series with Dewey's portrait may show up in some unsuspected place.

Many of the "Dewey" cards are found holed at the top. A few were apparently issued in that fashion to accommodate bar pin or ribbon tops. The Frank Tousey piece (No. 28), for example, was manufactured with a bar pin top on which the name of the product, "Work and Win" (an early dime novel), was spelled out. Without the bar pin in this case, the modern day collector might be hard pressed to identify the origin of the token. Who would know that Fred Fearnot on the reverse of the token was the hero of the Tousey novel "Work and Win?" In other cases, the cards are

found holed, but lacking tops. The Kirkham cards (No. 16), for example, are always holed. One such specimen has been observed with a ribbon and bar pin, but that adornment may have been added by a previous owner. Three specimens have been obtained by authors Dewey and Slabaugh with narrow red, white and blue ribbons through the holes in the tokens. These were apparently intended to be pinned on the person with a Dewey button or straight pin, as they would have been unsuitable for attaching to bar pins. Such contemporary ribbon may have been added by Kirkman sales people or the original owners. The Kirkman Company has stated that none of their cards were issued with bar pin tops which then raises the question: Why were they holed? The same reasoning would apply to other cards in the Dewey series that are normally holed but lack tops.

The weight of the tokens is given in approximate grains, despite the wide variation observed in individual issues. It will be understood that manufacturing tolerances in weight of such pieces are far more liberal than for standard coins of the realm.

The size of each card is specified in millimeters diameter and thickness at the edge. Classification of metals used in the striking of the tokens is from visual inspection of available specimens, and may therefore be metallurgically inaccurate. Where cards are known to have been issued in more than one metal, it is so stated.

Descriptions in the Catalogue listing are generally brief, as attribution will be accomplished easier from the photographs.

MADE BY: Probably Koch & Co., N.Y.

COLLECTIONS: WSD, ANS, GJF, NA, ARS

REFERENCES: STORER NO. 89, USNA Case 19, Item No. 29.

VARIETIES: (a) Obv. die - Y and S of COUNTRY'S spaced wide, and apostrophe between Y and S is barbed and set low, approximately in line with top of letters. Y is double cut at base; serifs of several letters are incomplete: left stand of N and left upper tip of Y in COUNTRY'S, right stand of M in ADMIRAL and upper left tip of Y in DEWEY. Serif at bottom of T of COUNTRY'S is defective.

Rev. die - Extraneous cut connects M and O of SMOKER'S. Similar break connects T and H of THE.

(b) Obv. die - Y and S of COUNTRY'S spaced close together and apostrophe touches S of COUNTRY'S from a position above the letters.

Rev. die - Same as Variety (a).

NOTES: Three other Dewey cards were struck from Obv. Die (a), namely Meara (No. 20), Houston (No. 13), Tyler and Smith (No. 29). Obv. Die (b) was used for the Unknown card (No. 31) and also a Dewey "Good Luck" token which is not included in the catalogue of Dewey Merchant's tokens.

MADE BY: C.H. Hanson Co., Chicago, Illinois.

COLLECTIONS: Var. (a) - ANS, WSD, ARS, NA.

Var. (b) - WSD

VARIETIES: (a) In brass. Double cut E and Y in DEWEY on Obv.

(b) In Bronze. Same prior to recutting obv. die as (a), but Rev. is blank. Probably a trial piece to test the obverse die.

REFERENCES: STORER NO. 77, USNA Case 19, Item No. 27.

NOTES: W.S. Dewey in his article in THE NUMISMATIST, March 1939, Page 130 states: "Probably issued by the Bucklen Company in acknowledgment of testimonial letters received from users of the product. The Bucklen Company was engaged in the wholesale distribution of drugs for many years before their recent retirement. Numismatically, this card, struck in brilliant proof, is the most meritorious of the entire series with the possible exception of the HANSON card." For purposes of the present listing, the McLAIN BROS. Card (No. 19) should be classed as having equal merit.

It is interesting to note that the Bucklen Company could not advertise Dr. King's new discovery for consumption and blood and nerve tonic in today's market place. The Food and Drug Administration now regulates such advertising, and this type is expressly forbidden.

The hub from which the obverse die of this piece was taken is the same one that was used for the HANSON Card (No. 11), but there is very clear evidence of retooling along the outline of the bust. The same hub was employed in striking the obverse of a medallic badge associated with the Reception Committee for the Welcome Home Celebration at Washington, D.C. for Admiral Dewey in October, 1899.

Obv. die - Same as McLain Bros. card (No. 19), and a G.A.R. badge of the 32nd National Encampment.

Dr. Storer, in his list of Spanish-American War medals (July 1922 "Numismatist") gives the diameter of this piece as 47 mm. This was evidently a slip-up in measurement on his part, as the correct figure is 38 mm.

## 5. CHARTER OAK STOVES & RANGES.

OBV. Profile bust of Dewey to right in center. Legend at top along border: "OUR HERO," and at bottom along border: ADMIRAL GEORGE DEWEY.

REV. Legend at top along border: OUR CHOICE, and at bottom along border: AND RANGES. Across field in three lines: CHARTER / OAK / STOVES with a sunburst around OAK extending through CHARTER and STOVES.

METAL: Gilded copper. SIZE: 32.0 mm. T.A.E. 2.0 mm. WEIGHT: 170 grains. BORDER: 5. EDGE: 1. ISSUED: 1899. RARITY: 9.

MADE BY: Whitehead & Hoag, Newark, N.J.

COLLECTION: WSD.

NOTES: This card is believed to be extremely rare, possibly unique.

## 6. CHICAGO FALL FESTIVAL.

OBV. Profile bust of Dewey to right in center. Legend at top and sides along border: ADMIRAL GEO. W. DEWEY. (Note that the middle initial "W" is superfluous as Dewey had no middle name.)

REV. Federal Building in center. Legend at top along border: CHICAGO FALL FESTIVAL, and at bottom and sides: OCT. CORNER STONE LAYING 4-11. In center beneath building in very small letters: FEDERAL BUILDING, and in a curved line below that: 1899.

METAL: Brass. SIZE: 35.7 mm. T.A.E. 2.3 mm. WEIGHT: 234 grains. BORDER: 4. EDGE: 1. ISSUED: 1899. RARITY: 9.

MADE BY: Possibly Schwaab Stamp & Seal Co., Milwaukee, Wisconsin, or Childs & Company, Chicago, Illinois.

COLLECTION: ARS

NOTES: Obv. die - Defective R in ADMIRAL. This die was also used for several varieties of Souvenir "Dewey" medals and badges other than Merchant Tokens. The Official Program of the Chicago Fall Festival shows portraits of Admiral Dewey and President William McKinley on its cover. The festival ran from Wednesday evening, October 4, to the following Wednesday night, October 11, 1899. It was advertised as the "Gathering of the Greatest Men of Many Nations," and touted the City of Chicago as "Foremost in Great Enterprises." The Governors of several states, Cabinet Officers, and U.S. Senators were pre-

sent. On Friday afternoon, October 16, the President was honored at a reception which was attended by naval and military heroes of the Spanish-American War. Admiral Dewey could not attend due to his being honored at official celebrations in the nation's capital, October 2 to 7, and at Montpelier, Vermont, his birthplace, from October 8 to 12.

It was claimed that more than a million "strangers" visited Chicago on Sunday, October 8, and the following day when the cornerstone of a new Federal Building was laid by President McKinley. An artist's impression of that edifice was employed as the central motif of the reverse of this Dewey merchant's card. In view of the magnitude of this great festival, one wonders why more of these pieces have not been unearthed by now. For the moment we must consider the Chicago Festival Card as a very scarce item.

#### 7. DAKINS BUSINESS INSTITUTE, SYRACUSE, N.Y.

OBV. Profile bust of Dewey to right in center. Legend at bottom along border: ADMIRAL GEORGE DEWEY. Below bust in minute letters: W. & H. CO. NEWARK, N.J.

REV. Legend at top along border: DAKINS, and in curved line below: BUSINESS. Across field in two straight lines: INSTITUTE / HERALD B'LD'NG. Legend at bottom along border: SYRACUSE, N.Y.

METAL: Gilded copper. SIZE: 32.0 mm. T.A.E. 2.0 mm. WEIGHT: 170 grains.

BORDER: 5. EDGE: 1. ISSUED: 1899. RARITY: 9.

MADE BY: Whitehead & Hoag, Newark, N.J.

COLLECTIONS: WSD, GTC.

REFERENCES: WRIGHT No. 1387, THE NUMISMATIST, May 1900, page 153.

NOTES: Obv. die - WART ON TIP OF NOSE, DIE BREAK BACK OF HEAD, AND "Spiked" chin. This die used for seven other Dewey cards.

Rev. die - Only specimen observed shows N and Y of N.Y. lightly recut.

Dr. Wright's AMERICAN STORE CARDS, in the May 1900, THE NUMISMATIST, Page 153, No. 1387, designates the reverse of this card as the obverse. However, since this paper relates to Admiral Dewey, the "heads" side is treated as the obverse. Wright lists the card as "C-21," where C stands for copper, and 21 means 21/16 inches or 33.0 mm. The W.S. Dewey specimen actually measures 32.0 mm.

#### 8. EAGLE COTTON GIN CO., BRIDGEWATER, MASS.

OBV. Profile bust of Dewey to right in center. Legend at bottom along border: ADMIRAL GEORGE DEWEY.

REV. Eagle on ground preparing to take off to right; wings outstretched. Legend at top along border: EAGLE COTTON GIN CO., and at bottom: BRIDGEWATER, MASS. In microscopic letters between lower legend and border milling: W. & H. CO. NEWARK, N.J.

METAL: Gilded copper. SIZE: 28.8 mm. T.A.E. 2.0 mm. WEIGHT: 140 grains.

BORDER: 5. EDGE: 1. ISSUED: 1899. RARITY: 9.

MADE BY: Whitehead & Hoag, Newark, N.J.

COLLECTIONS: WSD, ANS.

NOTE: Obv. die - W of DEWEY recut and low in line. Same die used for Iowa Fair card (No. 14). (28) FEARNOT, FRED. (see Tousey card No. 28.)

## 9. GRIESHEIMER & CO., CHICAGO, ILL.

OBV. Profile bust of Dewey to right in center. Below, in minute letters: W. & H. CO. NEWARK, N.J. Legend at bottom along border: ADMIRAL GEORGE DEWEY.

REV. Legend at top along border: LOOK FOR US ONLY AT, and at bottom in script: GRIESHEIMER & CO. In five lines through center: COR. CLARK & LAKE STS. / LARGEST AND BEST LINE / OF SUITS \$10.00 AND OVERCOATS / U.S.

METAL: Gilded copper. SIZE: 32.0 mm. T.A.E. 2.0 mm. WEIGHT: 170 grains.

BORDER: 5. EDGE: 1. ISSUED: 1899.\* RARITY: 7.

MADE BY: Whitehead & Hoag, Newark, N.J.

COLLECTIONS: WSD, GJF, ARS, ANS.

NOTES: Obv. die - Wart on tip of nose, die break back of head, and "Spiked" chin. This die used for seven other Dewey cards. There is some question as to the rightful meaning of "U.S." on the reverse of this card. Some feel that it refers to the first two initials of the Griesheimer name, thus, U.S. Griesheimer. However, this seems unlikely, as the name of the firm at the bottom is spelled out in script. If U.S. were a part of the name, it would likewise have been shown in script. Another possibility is that it relates to the product advertised; a touch of commercial exaggeration, thus, BEST LINE OF SUITS AND OVERCOATS (IN THE) U.S. The most likely explanation, however, seems to be that the U.S. stands for the United States with respect to its currency. It is a well known fact that Chicago had a large German population at the turn of the century, many of whom were recent immigrants to this country. It is reasonable to assume from the name of the business that the Griesheimer Company would have catered to this trade. Some German customers might well reason that the \$10.00 spelled out on the advertising token represented German marks rather than U.S. dollars. This would give

\*There is a possibility that this card may have been struck in connection with the second anniversary celebration to Admiral Dewey at Chicago in the spring of 1900.

them an opportunity to drive a hard bargain - one that the merchant, Griesheimer, simply could not afford. Quite probably, he may have had some experience along such lines. Ten, old style, German marks would have equated to only a fraction of 10 U.S. dollars, and would be less than wholesale cost. So, to assure no misunderstanding, "U.S." was included in the offer on the reverse of the token so as to indicate good United States money.

# 10. FRED. GRIESHEIMER CLOTHIER, CHICAGO, ILL.

OBV. Profile bust of Dewey to right in center. Legend at top along border: CHICAGO AUTUMN FESTIVAL., and at the bottom along border: ADMIRAL GEORGE DEWEY. In minute letters below bust: W. & H. CO. NEWARK, N.J.

REV. Across field in two lines of semi-script lettering: FRED. / GRIESHEIMER, and below in modified old English type: CLOTHIER with two periods at either side. In curved line through lower part of field: STATE ST., COR. JACKSON BLVD. Legend at bottom in curved line: 1899.

METAL: Gilded copper. SIZE: 32.0 mm. T.A.E. 2.0 mm. WEIGHT: 170 grains. BORDER: 5. EDGE: 1. ISSUED: 1899. RARITY: 7.

MADE BY: Whitehead & Hoag, Newark, N.J.

COLLECTIONS: WSD, ARS.

VARIETIES: (a) Obv. die - Recut H in CHICAGO and S in FESTIVAL. Rev. die - Period after date 1899, comma after ST., and I dotted in CLOTHIER.

(b) Obv. die - Same as (a), but I in FESTIVAL very weak.

Rev. die - Punctuation noted in Variety (a) missing. Probably dirt filled in the die.

NOTES: The Chicago Autumn Festival was held October 4-11, 1899. This card, and that of Griesheimer & Co. were concerns in the Chicago Loop, the downtown shopping area. They were several blocks apart, and apparently were not associated in any way.

Refer to Card No. 6 for details on the Chicago Festival.

# LIBRARY REPORT

## Library Catalog a "Best Seller"

When it was decided to print 5,000 copies of the new A.N.A. library catalog, it was thought that we would have enough to supply members' requests until the end of this year, at least. Not so. Before mailing part I (Coins and Coin Collecting) was begun, well over 5,000 requests had been received on the insert card in the April issue of *The Numismatist*.

A second printing has been ordered and mailing of all requests is being completed as rapidly as possible. A few cards were received without some of the required information, especially membership numbers and zip codes, and these were put aside to be checked against the membership records.

Printing of the remaining parts II (tokens, medals, primitive money, etc.), III (paper money and banking) and IV (periodicals and auction catalogs) is in progress. It has been decided to mail these three sections together to all members who requested part I, so no new requests are necessary. Those who failed to return the card from the April issue of *The Numismatist* may still do so, or request a duplicate card, for the entire catalog. Please DO NOT send a letter or other form of request.

This project has required hundreds of hours of the headquarters staff's time in addition to its regular work. The cataloging alone on the pages for the catalog, when completed, will have resulted in the handling of over a million sheets of paper (5½ x 8½ inches). Add to this the basic cataloging of hundreds of publications, the typing and paste-up of nearly 350 pages of entries, typing over 11,000 address labels, and preparing as many pieces of mail.

One catalog, sans ring binder, is being furnished to each member who requests it. The request cards are being filed for future reference and a substantial charge, not yet established, will be made for additional copies to members and to all non-members wishing them.

Obviously, the library catalog project has entailed considerable expenditure of the library fund that came primarily from generous donations from member Harry W. Bass, Jr. of Dallas and the Sid-

ney (Ohio) Printing and Publishing Company. Other cash donations from about 150 members, recorded in the first six months of 1972 in *The Numismatist*, have totaled some \$1,500; the largest two being \$50 from Ralph Stefanelli of New Jersey and \$57.60 from the Sooner Coin Club of Oklahoma. A number of others made substantial donations of books and other literature, these also being appreciated.

Work is already under way to update the catalog by listing literature received since the original cataloging was completed. The Association hopes that members, especially those who are receiving the first edition of the new catalog, will contribute toward the cost of producing the revisions. Make checks or money orders payable to: ANA Library Fund, and send them to: ANA Librarian, P.O. Box 2366, Colorado Springs, Colo. 80901. Remember, you will receive a receipt which may be used in claiming a tax deduction for a contribution to an educational organization.—Glenn B. Smedley, Education Committee Chm.

### Library Donors

The ANA and members of the headquarters library staff are grateful for contributions made by the following during the past month:

Ryan F. Lakin, O.H. Dodson, Roger S. Cohen, Jr., Mr. and Mrs. Virgil G. Jackson, Harold Levius, and John L. Ahbe.

Also appreciated is the generosity of the following associations, clubs and companies:

Munzen - Isler Stack's Seaby's Arms and Armour Press, State Historical Society of Wisconsin, North American Indian Publications, Sterling Publishing Co., Turner Publications, Obol International, and Dover Publications, Inc.

## BOOK REVIEWS

*The great consulting room of a wise man is a library. — G. Dawson.*

### Album's Catalogue

**CATALOGUE OF CALIFORNIA TRADE TOKENS** by Stephen Album. 1972. 357 pp. Illus. Hard cover. Duane H. Feisel, P.O. Box 11661, Palo Alto, Calif. 94306. \$9.

This is the first of two volumes that Album intends to fill with listings of California merchants tokens. Volume one contains about 6,000 listings collected from over Northern California. The remainder of the state will be listed in Volume two, for which the author already has more than 5,500 listings on hand.

"It would in no way surprise me to find at least as many new listings for the first supplement," Album writes in the preface, "for material previously unknown, as well as new issues, is coming to light at an astonishing rate."

Tokens were quite popular with saloonkeepers, billiard room operators, bakers, cigar store proprietors and dairies. In many areas in California, local tokens were honored by all merchants as quasi-legal tender due to a need for small change not satisfied until after the San Francisco mint began to strike nickels in 1912.

Before using the book the author

advises that the reader "should peruse the introduction, and study with care the section devoted to the method of listing."

Following such simple preparations, the author and this reviewer agree that the book should serve as a valuable tool to collectors and dealers.

### *Book of Man Money Matters*

**BANKNOTES & BANKING IN THE ISLE OF MAN 1788-1970** by Ernest Quarmby. 1971. 124 pp. Illus. Hard cover. Spink & Son Ltd, King Street, St. James, London, England. \$7.34.

This work was published to help fill a void of information available on Manx notes. Research was not easy because records of many of the early banks of issue have long since disappeared. The two world wars and attendant salvage drives contributed to loss of business documents.

Quarmby's research provides detailed listings of notes issued in the Isle of Man including various paper currencies used in the Internment Camps during the war years 1939-1945. Although not official bank issues, the currencies are included to make the work as complete as possible. Card

money has been omitted since the author felt that it was a separate specialized study.

The book is detailed in its coverage of the subject and the author appears to have succeeded in his efforts to provide an informative work for the benefit of libraries, museums and collectors.

### *Gentleman's Book of Small Art*

**DESIGN IN MINIATURE** by David Gentleman. 1972. 104 pp. Illus. Hard Cover. The American Numismatic Society, Broadway at 156th Street, New York, N.Y. 10032. \$8.50.

This work shows how a designer tackles the design of such small things as coins, postage stamps, pin packets, pill boxes, matchbox labels and others. The author describes how the successful design of these often minute objects or pieces of printing results both from the concentration and necessary simplification of the various elements.

The book touches on many other subjects, including the use of printers' flowers in *ex libris* labels, tickets, etc., and the use of engine turning and pendulum-drafting machines for the background design in bank notes and security printing.

A section is devoted to the development of the modern trade symbol from medieval merchants' marks and printers' devices. Another section deals with the small wood engravings of Thomas Bewick. The two largest sections in the book are on the use of wood engraving as a medium for design in miniature and the designing of postage stamps.

### *Sultans' Coinage Guide*

**COLLECTOR'S GUIDE TO MUHAMMADAN COINS OF INDIA** by Donald B. Hull, M.D. 1972. 789 pp. Illus. Hard cover. Joel L. Malter and Company, P.O. Box 777, Encino, Calif. 91316. \$55.

Numismatists have largely overlooked the collection of coins of India because of lack of ready and adequate reference material. Dr. Hill has helped solve that problem with this guide to the coinage of the Sultans of Delhi and

the contemporary provinces. The work covers a time span of roughly from 1193 A.D. to the beginning of the Mughal Era in the mid-Sixteenth century.

The guide is divided into three books: Sultans of Delhi, Contemporary Provinces, and The Mughal Rulers. The sultans are presented in chronological order with a small historical note under each ruler. Under each ruler each metal is presented with various mints when possible. A list of symbols of the various rulers has been included. For easy reference each coin listed has been numbered in chronological order.

### *40 Year Series Continues*

**SYLLOGE NUMMORUM GRAECORUM**, the collection of the American Numismatic Society, Part 2, Lucania. 1972. 38 plates (11½ x 15½). Illus. Paper cover. The American Numismatic Society, Broadway between 155th and 156th Streets, New York, N.Y. 10032. \$25.

The second fascicule in the publication of the extensive American Numismatic Society's collection of Greek coins is now available. The format of the work is that of the *Sylloge Nummorum Graecorum* series initiated by the British Academy 40 years ago.

Part two contains collotype illustrations of 1,442 coins on 38 plates accompanied by brief catalogue descriptions. The chief coinages represented in this section are those of Heraclea, Metapontum, Poseidonia, Thurium and Velia.

### *Books Received*

The inclusion of a book in this list does not preclude us from publishing a review at a later date. Far too many books are received monthly to review immediately and we do not wish to deprive our members of the knowledge of their availability.

**SYLLOGE NUMMORUM GRAECORUM** Volume IV: Fitzwilliam Museum, Leake and General Collections, Part VIII, Syria-Nabathaea, 1971. 48 pp. Illus. Hard cover. Oxford University Press, 200 Madison Ave., New York, N.Y. 10016. \$24.00.

**THE COINS OF PERU 1822-1972** by Al Almanzar and Dale A. Seppa, 1972. 84 pp. Illus. Paper cover. Almanzar's Coins of the World, Alcedo F. Almanzar, Suite D, Milam Building, San Antonio, TX 78205. \$3.00.

Left to right: Mrs. Mary Brooks, director, U.S. Mint; Mr. John Jay Pittman, president, American Numismatic Association; Mr. True Davis, president and chairman of the board, The National Bank of Washington.

## CERTIFICATION SERVICE UNDERWAY

Certificate of Registration No. A00001 of ANACS (ANA Certification Service) was handed by Charles Hoskins, ANACS director, to True Davis, president of the National Bank of Washington, at the bank's International Branch in Washington, D.C., during a ceremony held June 22 to celebrate the launching of the numismatic authentication service.

The first coin received by ANACS for authentication was Mr. Davis' 1918 Aztec Calendar Stone gold 20 pesos of Mexico.

Present to see Mr. Davis receive the first ANACS registration certificate for his coin were some 50 persons prominent in the District of Columbia's business and numismatic circles, among them being Mrs. Mary Brooks, director of the U.S. Mint; Miss Eva Adams, former mint director and an ANA governor, Dr. Val Clain-Stefanelli, curator,

Numismatic Department, The Smithsonian Institution; Mr. Robert Lipton, in charge of the Jefferson Memorial; Ellis Edlow, ANA's legal counsel, and Eldridge Jones, ANA governor.

Out of town visitors included ANA President John Jay Pittman and Virgil Hancock, ANA governor. Pittman briefly explained how ANACS came into being as the world's first service set up specifically to give an authoritative answer as to the genuineness of numismatic material submitted by anyone, from any place in the world.

Pittman explained how the funds for ANACS were raised by the American Numismatic Authentication Trust (ANAT) which comprised Abe Kosoff, trustee representing the Professional Numismatists Guild (PNG), Virgil Hancock for the Organization of International Numismatists (OIN), and himself as ANA's trustee.

After the trust fund had reached \$50,000 during the ANA 1970 convention in St. Louis, the ANA board of governors assumed the responsibility for putting ANACS into operation, and the committee named to prepare a "road map" for its operation comprised Herbert Bergen, then ANA president, Virgil Hancock, George Hatie, Eric P. Newman, and John Jay Pittman.

Assisting Charles Hoskins in the operation of ANACS is Eva Littman as technical assistant, formerly with the U.S. Bureau of Engraving and Printing, and Philip Neisser and Morris Boley, both formerly with the Philadelphia

Mint.

In answer to a question, Hoskins said that for the present ANACS is accepting only coins for certification, but that paper money would be added to the service as quickly as feasible, probably in late 1973, tokens and medals then to follow.

For insurance and security reasons, Hoskins asked that all coins be sent to ANACS by mail, even from local collectors, and not delivered to ANACS personally. Coins are to be addressed: Charles Hoskins, Director, ANACS, Box 87, Ben Franklin Station, Washington, D.C. 20044.

## Young Numismatist Representative Duties

Young Numismatist representatives are still needed throughout the country.

Anyone can be a YNR, young or old. The youngest YNR is 12 years of age and the oldest is many times that. The main qualification is an interest in helping juniors in the hobby.

The main duties currently are to encourage juniors to become knowledgeable in the hobby and to spark and sustain their interest.

Some of the advantages of the ANA Young Numismatist program include: (1) the Young Numismatist quarterly publication, (2) the Young Numismatist monthly publication, (3) free trophies for Young Numismatist activities, (4)

free coins, medals, magazines, supplies and books for awards for YN activities, (5) color slides and a tape on Ethiopian coins free to be borrowed for club programs, (6) special awards for junior exhibits at the ANA national convention, and (8) a YN correspondence course—currently being developed and expected to be ready in a few months.

Members of the Young Numismatist Committee are looking for new ideas as well as YNR volunteers. Those who wish to volunteer to contribute an idea that may help the program may contact ANA Governor Kenneth L. Hallenbeck, Jr., Chairman of the ANA Young Numismatist Committee, 1141 West Lexington Ave., Fort Wayne, Indiana 46807.

## CENTURY OLD NOTES

Rondout, N.Y., December 9, 1871.

GENTS — Having read your valuable magazine, and also having a little time to spare, I thought I would give you a description of my coin cabinet. My cabinet is about square, made very plain, of black walnut; its dimensions are two feet high, one and a half feet wide and one and three-quarter feet deep. The size of a drawer is consequently one and three-quarter feet deep by one and a half wide. My cabinet comprises twelve drawers, eleven of which are one inch deep, and one (No. 12) is three inches. All my drawers, except No. 7, are covered with bleached canton flannel — No. 7 is covered with black velveteen. H.C.W. — *Mason's Coin Collectors' Magazine*, 1872.

# Medallic Art of the United States, 1800-1972

## Subject of Louisiana Exhibit

An exhibition of more than 1,800 medals, souvenir tokens, and ingots will open Aug. 8 at the R.W. Norton Art Gallery in Shreveport, La. The opening date is timed to coincide with the 81st Anniversary Convention of the American Numismatic Association in New Orleans, Aug. 15 - 19, and will give conventioners an opportunity to see the exhibit on their way to the convention, or as they return home. The exhibition will close Sept. 10.

Almost all the medals are from Norton Art Gallery's collection; a few are being loaned from private collections. Of the exhibit medals, 1,300 were struck by The Franklin Mint of Franklin Center, Pa., and 200 were struck by Medallic Art Company of Danbury, Conn.

This George Washington gold funeral medal was struck by Jacob Perkins, Boston, in 1800, after a portrait of Washington etched by Joseph Wright in 1790. Less than 10 of these medals in gold are known today. Size 26 by 30 mm. It is in a contemporary locket case. The medal pictured reportedly was given by Martha Washington to Alexander Hamilton in 1800.

Medals pertaining to United States subjects or struck in this country are included. Many series of medals on the history of the United States are being shown and other subjects include art, religion, drama, medicine, pharmacy, the Old West, the Christmas season, the history of America's space program, famous people, and more.

Oldest of several rare or unique medals in the exhibit is a George Washington gold funeral medal that dates back to 1800. It is one of seven known today and was struck by Jacob Perkins in Boston shortly after Washington's death in 1799. The medal on exhibit came from the family of Alexander Hamilton and was given to him by Martha Washington in 1800.

One unique medal is the gold official Louisiana Purchase Exposition souvenir medal struck by the U.S. Mint at its exhibit at the exposition in St. Louis in 1904. Some 90,000 medals were struck in other medals, but only one in solid gold.

Exhibit visitors will see how a Medallic Art Company high relief medal is produced through a series of photographs, a cancelled die, and a process set showing eight production stages of a medal.

A 30-minute color film on the techniques of producing low-relief art medals at the Franklin Mint will be shown at 2 p.m. weekdays and at 2 and 4 p.m. on Saturdays and Sundays.

Norton Art Gallery will publish an illustrated catalog of the exhibition. It will include an essay on the making of a medal and is priced at \$3, postpaid.

The exhibit is open to the public without charge from 1 to 5 p.m. Tuesdays through Sundays. The museum normally is closed on Mondays, but will be open Aug. 14 and 21 to accommodate those attending the ANA convention in New Orleans.

For further information, or to order a copy of the catalog, write The R.W. Norton Art Gallery, 4747 Creswell Ave., Shreveport, La. 71106.

## History in the Making as narrated on a One Dollar Note

By Fred Gadjen, ANA 11765

THE MAJOR DESIGN on the reverse side of the United States one dollar bill has not been changed since the 1935 Series. At that time the late President Franklin D. Roosevelt, along with his Secretary of the Treasury Morgenthau, was instrumental in placing the Great Seal of the United States on what was then the \$1 Silver Certificate. Later in the series the words "In God We Trust" were added.

Many people know surprisingly little about the two encircled symbols that represent the seal--the pyramid on the left and the American Bald Eagle on the right.

The pyramid is incomplete. A portion of the top is missing. This is a reminder that there is much work to be done in the Republic and it is expected that the United States always will be growing and building.

The all seeing eye inside the radiant triangle at the top of the pyramid emphasizes the importance of putting the spiritual welfare of our country above the material things. It also stands for education and freedom of knowledge. This eye symbol was suggested by Benjamin Franklin.

The pyramid has 13 steps or blocks of rock which stand for the 13 original states. Latin words at the top of the inside circle, *ANNUIT COEPTIS*, (13 letters) mean in English, "God has favored our enterprise." Many words and symbols are in "thirteens" because of the original 13 states.

The Roman Numerals *MDCCLXXVI* at the pyramid's base add up to 1776, the year that the United States was born as an independent nation.

The three Latin words, *NOVUS ORDO SECLORUM*, at the bottom of the inside circle, directly under the

pyramid, mean "The New Order of the Ages." They mean that the new republic introduced a new age in the life and freedom of the people of the world and ushered in an era in which the people could exercise their rights to self-government.

The American Bald Eagle within the symbol circle represents the other half of the Great Seal. It first became our National Emblem in 1782 when it was chosen as a symbol of strength and victory.

Above the eagle's head is a ring of light with 13 stars in the background. In the beak of the eagle is the Latin *E PLURIBUS UNUM* which means "one out of many." The shield on the breast of the eagle represents congress. The 13 stripes of the shield represent the stripes in our flag.

One of the eagle's claws holds an olive branch with 13 leaves and seeds on it. The branch is a symbol of peace. The other claw is holding 13 arrows of American Indian origin which symbolize war. The eagle looks toward the olive branch indicating a preference for peace.

*IN GOD WE TRUST* is between the two symbol circles and directly above the word *ONE*. This is our country's National Motto and was approved by the 84th Congress, July 11, 1955, for use on all U.S. currency.

# YOUNG NUMISMATISTS' CONVENTION PLANS: 1972

By David L. Ganz ANA J-59168

A plethora of events designed to keep the Young Numismatists busy at the 81st Anniversary Convention of the American Numismatic Association has been planned for this August's New Orleans gala affair.

A full schedule of events have been scheduled for Friday, August 18 and Saturday, August 19. For the second consecutive year, all special events for junior members of the ANA will be presented at no cost to the young people. The cost-free spectacular has been made available through the interest of the Young Numismatist Committee, private individuals and firms who all assumed sponsorship to assure the best convention ever for the juniors.

On Friday, August 18, a special luncheon will be held for the Young Numismatists at the Jung Hotel convention site. Sponsored for the third year by The Franklin Mint, the luncheon spectacular will be attended by more than 100 junior members of the ANA. Each young numismatist in attendance will receive a special sterling silver medal struck especially for the occasion in limited edition by the Franklin Mint. No more than 120 medals will be available for the luncheon. Past medals are already collector's items.

A replete meal is planned for those in attendance at the luncheon. Starting with salad covered with French dressing, the young people will then have chopped sirloin steak with mushroom sauce, oven brown potatoes, green vegetables, and pistolets with creamery butter. Pineapple sherbert, milk, tea and coffee will round out the dessert portion of the meal.

There will be several speakers to highlight the Young Numismatist luncheon. The special guest speaker will be Mrs. Mary Brooks, mint director, who has been an active friend of youth since taking office in 1969. Mrs. Brooks is scheduled to speak on Youth and Numismatics.

Edwin V. Quagliana, eastern representative of the Franklin Mint and former advisor to the Rochester (New York) Junior Coin Club, will draw upon his experience as the adult advisor to the oldest junior-run coin club in the nation as well as his new capacity with Franklin Mint.

Kenneth L. Hallenbeck, Jr., chairman of the Young Numismatists Committee and member of the board of governors of the ANA will deliver a brief progress report on the YN movement for the past year. He will also present several awards to junior ANA members for their outstanding achievements during the past year.

Governor Hallenbeck will present the following awards at the Friday luncheon: in the field of literature, the Debbie Jane Gould Memorial Award and the Lewis M. Reagan Memorial Foundation Award; in exhibiting, the Gordon Z. Greene U.S. Exhibit Award, the James L. Betton Foreign Exhibit Award, the Charles K. Lyle U.S. Currency Award for U.S. Currency; the Melissa Van Grover Award by the Judah L. Magnes Museum for the best junior exhibit of Israeli or Judaic numismatics; the Hazel Lindstrom Outstanding Adult Leader or Advisor Award; and the Societe Commemorative de Femmes Celebres Outstanding Young Numismatist Award.

Plans have been made to honor friends of the Young Numismatists for their outstanding service to all young coin collectors. Mrs. Mary T. Brooks, the Director of the Mint, will be recognized for her aiding of young people. Mrs. Margo Russell, editor of *Coin World* and Chester Krause of Krause Publications are being given the Young Numismatist's Distinguished Service Award for their outstanding support of the ANA Young Numismatists in the hobby press. The Token and Medal Society is also being formally recognized for their aid to the Young Numis-

matist publication.

The final service award is being given to Paul Whitnah. Long called the "oldest Junior" in the ANA, Paul is being honored for his untiring efforts in aiding the Young Numismatists since the founding of the movement in 1965.

Saturday, August 19 will be the second big day for the juniors. The day is being planned around a five hour excursion up the Mississippi River on the famous sternwheeler, *The Mark Twain*.

The 40 mile, five hour tour is scheduled to begin promptly at 11 a.m., although the young numismatists are expected to assemble and leave the Jung Hotel an hour earlier. From the Jung, they will travel through the famous Vieux Carre or French Quarter to the Canal Street docks where they will embark upon a narrated adventure that will take up the better part of the day.

The group will travel on the old-time river boat up the Mississippi, through the Algiers lock at the French quarter, up the Bayou Barataria where the pirate Jean Lafitte and his buccaneers hid. The trip returns via the Harvey Canal to the Mississippi and past the City of New Orleans.

For this exciting trip, which is being sponsored through the generous patronage of Eva B. Adams, former mint director and current ANA governor, all the juniors have to do is buy their lunch aboard the Mark Twain at the snack counter.

When the Mark Twain returns at 4 p.m., the Young Numismatists will return to the Jung. Later that evening, juniors who have purchased banquet tickets will attend that gala affair.

Juniors planning to attend the 81st Anniversary should sign in advance for both the luncheon and the Mark Twain bayou tour. Those who do sign for the luncheon and river boat tour will be required to sign up again at the Convention, preferably 24 hours before each event.

This year's convention plans for ANA juniors sounds better than ever. See you all in New Orleans!

# LATE WORLD COIN NEWS

## CAYMAN ISLANDS

### *Numismatic Agent Selected*

V.G. Johnson, financial secretary of the Cayman Islands, recently announced that Paramount International Coin Corporation of Englewood, Ohio, has been selected as the sole worldwide numismatic agent for the Cayman Islands.

The British Crown Colony, located south of Cuba in the Caribbean Sea, first introduced its own coinage on May 1, 1972. At that time, one, five, 10 and 25 cent pieces were placed in general circulation. Since then, a 50 cent piece, one dollar, two dollar and five dollar coins have been announced. The four larger denominations all will be struck in .925 fine sterling silver.

Johnson said that the Cayman Islands soon will begin a numismatic program designed for the collector. Plans include the issue of a proof set containing all eight of the new coins and the issue of two \$25 coins, one of silver and one of gold, to commemorate the 25th wed-

ding anniversary of Queen Elizabeth and Prince Philip. Exact prices and ordering procedures have not yet been announced. Both the proof set and the commemorative coins will be struck at the Royal Canadian Mint in Ottawa, and will be distributed by Paramount.

Additional details about the new program may be obtained from Paramount International Coin Corporation, Paramount Building, Englewood, Ohio 45322.

The new Cayman Islands \$2 coin will feature a beautiful egret in flight. It will be minted of sterling silver.

### Increased Interest In Jamaican Coins

On August 6, 1962, after nearly 300 years as a British Crown Colony, Jamaica became a fully independent nation and a proud new member of the British Commonwealth of Nations. A ten dollar silver coin and a twenty dollar gold coin have already been issued to commemorate Jamaica's tenth anniversary of independence. These coins have been widely applauded by collectors of fine world coins and they have served to create tremendous interest in Jamaica's regular coinage as well. A highly popular series since its beginning in 1969, the entire Jamaica proof set series is now in the numismatic limelight. And with this increased enthusiasm for Jamaican coins, it's small wonder that the 1972 Jamaica proof set is being so eagerly awaited by collectors all over the world.

### A New Design For The \$5 Coin

The highlight of the 1972 set will again be the large sterling silver \$5 coin. Due to the fact that Norman Manley's widow did not care for the likeness of her husband on last year's coin, the 1972 \$5 coin will bear a new profile of the late Jamaican statesman, making both the coin and the set a first year of type. World crown collectors are also excited because this year the \$5 coin is being offered *singly* for the first time (last year it was available *only* as part of the complete set). Jamaica has also not forgotten

the collector who desires uncirculated coins as well as proofs. The 1972 Jamaican coins are available in an uncirculated specimen set for just \$19.75 plus a \$1 handling charge.

### Excellent Investment Potential

The Jamaican proof sets of 1969, 1970, and 1971 have all proven to be outstanding investments for their original purchasers. And the lucky 1048 people who ordered the 1971 6-piece set can already realize nearly a 100% profit on their initial investment! With the tremendous current interest in Jamaican coins, and because of the obvious success of past issues, there is every reason to believe that the 1972 Jamaican proof set will also prove to be a sound investment.

### Don't Forget The Deadline

To take the fullest advantage of the investment potential of the 1972 Jamaica set, you must order at the official government issue price. This official price of just \$27.50 per set (plus a \$1 handling charge) is good only until August 31, 1972. Orders received after that date must be returned to the sender. After the deadline date, any person desiring a 1972 set (and there will be many!) must buy it from one of the original purchasers who will quite naturally expect to make a profit. Make sure that you're one of the original purchasers by mailing your order on or before August 31, 1972.

## ORDER FORM

# THE ALFRED R. GLOBUS COLLECTION OF GOLD COINS OF THE WORLD

STACK'S takes great pleasure in announcing that they will conduct the Public Auction Sale of The Alfred R. Globus Collection of Gold Coins of the World on **October 19, 20, 21, 1972**. Regardless of the area, nation or epoch you collect, there surely will be specimens offered that you will be proud to possess.

A brief outline of this collection...

**LATIN AMERICAN COINS.** Virtually every country in North, Central, and South America is represented by superb examples in different centuries. Various types commencing with Argentina, continuing with the splendid Spanish-Colonial coinage, and highlighted by such rarities as Salvador, Bolivia 1 Peso, Honduras, and Terra del Fuego.

**NEAR AND FAR EAST COINS.** This area of Numismatics contains many of the intriguing coins of Japan, China, India, Australia, German New Guinea, Egypt, Turkey, and other difficult-to-find countries. The quality of the coins in this series is outstanding, and further adds to the importance of this offering.

**RUSSIAN AND BALKAN COINS.** This part of the world is represented by a splendid group of Russian coins in magnificent condition, and abounds with many great rarities, including "finest knowns." The Balkan section is unusually broad in scope and is headed by a complete collection of coins of Montenegro.

Of particular note are the great rarities of the Netherlands, and the rare ducat coinage of Denmark and Sweden. All of these are in a fantastic state of preservation, with many "finest knowns" among the offering.

**ITALY, SPAIN, PORTUGAL AND SWITZERLAND.** The coinage of the southern countries of Europe can be found in this section. Many of the City States of Italy are represented here. Take advantage of this highly competitive market. Frankly, I urgently need material to replenish my stock and fill want lists for clients. I am not seeking "bargains." My buying records prove I pay top prices for choice material. It will pay you to write me for a quotation whenever you are ready to sell ... one piece or a collection.

Each year the Professional Numismatists Guild, leading organization of prominent coin dealers, holds a "PNG Day" right before the ANA convention. This year's PNG Day will be the biggest and best ever!

**WHERE AND WHEN:** P.N.G. Day will be held in the Jung Hotel, New Orleans (the site of the American Numismatic Association's annual convention, which begins the following day), on Monday, August 14th. The event is held in cooperation with the American Numismatic Association.

**WHAT WILL BE THERE:** P.N.G. dealers from all over the world will have an active one-day bourse and will be actively buying and selling all kinds of numismatic items - including U.S. copper, silver, and gold coins, coins of the world, ancient coins, paper money, tokens, and other pieces for the collector, investor, and dealer. P.N.G. Day will be exciting! P.N.G. Day will be active! Be there!

**HOW CAN I BE INVITED?** P.N.G. Day is by invitation only. But, here's the good news: invitations are easy to get! We invite YOU to write to your favorite P.N.G. dealer (or to the secretary of the P.N.G.: John Smies, Box 371, Courtland, Kansas 66939) for your invitation. Don't delay doing this - do it now! An invitation is essential (this is a requirement of the agreement we have with the ANA this year), so don't overlook this important requirement! Write now - and request "P.N.G. Day Invitation." There's no charge or obligation!

**THIS IS JUST A SAMPLE OF WHAT YOU  
WILL FIND AT OUR TABLE IN NEW ORLEANS  
AT THE ANA CONVENTION.**

We have great confidence in the present coin market and we are showing this confidence by paying Top Dollar for Top Quality coins.

We do not need whizzed or processed coins which only appear to be BU (i.e. Barber Halves advertised at \$79.50, Bust Halves at \$32.50, etc.), but which in reality are no better than XF or possibly AU.

The first time that we ran this ad we received some of the worst "garbage" as BU that you can imagine. Please don't waste our time and yours unless your coins are **Choice BU**.

By the way, to command these prices, the early copper must be Brilliant, and not brown, Unc.

# THE PRESIDENTS

"Cameos in Silver" by *prestige creations*

*George Washington*

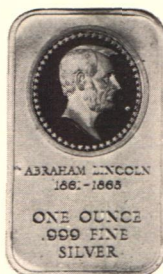

*Thomas Jefferson*

*Franklin D. Roosevelt*

*Dwight D. Eisenhower*

*Abraham Lincoln*

*John F. Kennedy*

It has often been said that "one picture is worth a thousand words." In the case of the remarkably beautiful silver ingots pictured above, a thousand pictures could not possibly capture the artistry and brilliance of these pieces. A new dimension has been added to medallion art by the creation of these ingots.

The frosted portraits of the Presidents are struck in high relief framed in an oval pool of brilliant proof, surrounded by a frosted field, a striking combination of finishes. These uniquely different silver cameos are truly a quality addition for any collection, struck in .999 fine silver, weighing one troy ounce.

## CASH ADVANCE

**THAT'S RIGHT ! ! ! !** We will advance a percentage of the fair retail value of your collection immediately upon receipt. Please send inventory first — do not send coins until you hear from us. We will then sell your collection at one of our forthcoming auction sales and you will receive your final settlement within 30 days after the sale. Our commission rates are always reasonable.

During the time that your coins are in our possession they are stored in our protected and insured vaults. When you receive your advance check, if for any reason you are not satisfied with the amount of the check, just return it and your coins will be returned postpaid.

In many cases our advance will be almost equal to others offer of outright purchase.

If you are not currently on our mailing list, just drop us a postcard with your full name and address and we will place your name on our catalogue mailing list.

**REMEMBER** — It is not too late to have your collection included in our next outstanding auction sale.

or any numismatic material  
From \$50 - \$200,000

In conjunction with the fantastic growth of our national retail sales, we are placed in a position of having to buy at a constantly escalating rate. Our extremely large volume of 100% retail sales makes it possible for us to pay you absolute top dollar for your numismatic material. We have customers for your coins and will pay more to get them.

### WHAT WE WANT TO BUY

We need a wide and varied assortment of numismatic items that most dealers just don't have the facilities to handle. We are not interested in "Cherry Picking" your collection, in other words we will not buy only the choice material from your collection and leave you holding the bag with what's left. We want and need everything, whether AG or proof, modern or obsolete. In short, if it's been worth your effort to save, we want it.

### ADVANTAGES OF SELLING TO US

(1) You get far more for your entire collection when you sell to Riverside Coin Company. Why? We have the best possible location for retail sales; we are centrally located in heavy tourist traffic and only a stone's throw from Hemisfair Plaza, the still active site of World's Fair 1968. This means we pay more for the insignificant items that dealers cannot afford to advertise as we sell them direct to our tourist clientele. We sell the better material to eager collectors through national advertising.

(2) You get immediate cash payment in strict confidence.

(3) You get the full value from your collection when selling to Riverside. Many collectors sell unknowingly to wholesale dealers. We are living proof of this as we spend hundreds of thousands annually with these wholesale dealers. You will eliminate him and get 100% for yourself by selling to Riverside.

(4) You get a pleasant and enjoyable transaction. You'll like the Riverside way of doing business.

### HOW TO SELL TO US

Selling to us is as easy as A-B-C. Thousands of collectors and dealers have done it. Here's all you do: Package your coins securely and mail them to us either insured or registered mail. Our offer in the form of a check goes out to you airmail the same day your shipment is received. Your coins are then held intact for 10 days while you consider our offer. If for some reason you do not accept our offer, your coins will be immediately returned to you postpaid.

# THE PRESIDENTIAL SERIES POSTA-INGETTES

THE PHILATELIC-NUMISMATIC GUILD is making available to non-members a series of posta-ingettes to be struck by the famed **LOMBARDO MINT**. These posta-ingettes, each a faithful reproduction in metal of what is, or is destined to be, a rare U.S. stamp, are in frosted proof .999 solid silver. One of the most interesting features of this offer is that the Philatelic-Numismatic Guild guarantees, even to non-members, that the cost of \$6.00 per ingette will be maintained throughout the entire series regardless of any increase in silver prices.

EACH PRESIDENTIAL STAMP, 32 in all, painstakingly reproduced in solid silver, will carry the personal serial number of the subscriber as well as the catalog number. Stamps honoring presidents from Benjamin Franklin to Calvin Coolidge will be represented. The first six posta-ingettes struck reproduce the Benjamin Franklin  $\frac{1}{2}$ c; George Washington 1c; Martha Washington  $1\frac{1}{2}$ c; John Adams 2c; Thomas Jefferson 3c; and James Madison 4c.

SUBSCRIPTIONS MUST BE POSTMARKED BEFORE SEPTEMBER 16, 1972; subscribers will be limited to 5,000. Others will have their money promptly returned. These posta-ingettes will be of great interest to numismatists and philatelists alike, and will spark an increased interest in Philamatics. These factors mean that a more than normal appreciation in value should be expected.

A HANDSOME RICH-GRAINED SIMULATED LEATHER FOLDER is available at a nominal charge to house the Presidential Series and future offerings of the Philatelic-Numismatic Guild.

A PARCHMENT CERTIFICATE carrying the signature of the President of the Philatelic-Numismatic Guild, name of the subscriber and his serial number will be forwarded, at no extra charge, with the last (32nd) posta-ingette.

THIS IS THE FIRST TIME the Philatelic-Numismatic Guild has made a public offering of any nature.

SUBSCRIBE TO THE PHILATELIC-NUMISMATIC GUILD'S FIRST PUBLIC OFFERING, THE PRESIDENTIAL SERIES!

## Philatelic-Numismatic Guild Box 525 Derby Line, VT 05830

Please accept herewith my initial remittance as a non-member of the Philatelic-Numismatic Guild, for which please send me the first three posta-ingettes in the Presidential Series; Benjamin Franklin  $\frac{1}{2}$ c; George Washington 1c; and Martha Washington  $1\frac{1}{2}$ c. I understand other ingettes in the Presidential Series will be made available to me monthly.

I enclose \$18.00 (plus 50c postage and handling) for 3 posta-ingettes in frosted proof solid silver. (Checks to be made payable to Philatelic Numismatic Guild.)

## **A Giant, a Legend, an American Institution!**

# **J. EDGAR HOOVER**

### **the greatest G-Man of them all!**

#### **A most fitting tribute**

To most Americans John Edgar Hoover was, as Pres. Nixon so aptly put it, "the symbol and embodiment of the values he cherished most: courage, patriotism, dedication to his country and a granite-like honesty and integrity."

56 years of his life were devoted to service of the United States, under eight presidents. 48 of those years Hoover spent building the FBI into a world-renowned law enforcement institution that will stand as a living memorial. He built to last.

The enduring qualities of beautiful medallic art make it an especially appropriate tribute to the great FBI chief—REMEMBER — MEDALS ARE FOREVER!

#### **Sculptor Menconi presented Freedoms Foundation Award**

Ralph J. Menconi, sculptor of many medal series for Presidential Art, has again distinguished himself as a sculptor and a scholar with the winning of the coveted FREEDOMS AWARD for the creation of medals of historic significance.

The fine hand of Menconi is apparent in the strong features, sculptured, in bold relief that so vividly portray the courage, fierce patriotism of law-loving Mr. Hoover. Forty-eight stars encircling the Obverse represent "J. Edgar's" 48 years as FBI chief. Hoover's signature is reproduced from a personal letter to Menconi in 1970. Design of the Reverse incorporates meaningful elements of the FBI seal: Scales for Justice, Laurel for Integrity. Figure of Justice represents Liberty, purpose and aims of the FBI.

The Hoover medal will be a proud possession for historians, law-loving Americans, and a must for any serious collector.

## Mystic Medallion of The Zodiac

Coin and medallion designs have utilized a wide variety of themes and subjects over the years. In spite of the subject or the design itself, it is always the goal of the medallic sculptor to create a work of art, a lasting contribution to the one art form, which — above all others — is most familiar to more people than any other field of art.

One of the most unusual examples to be introduced on the numismatic scene is the Zodiac Lucky Number Medallion, recently announced by Van Brook of Lexington. The medal is certain to stir the imagination of anyone who sees it, and should be popular and well received by collectors, whether they are Zodiac devotees or not.

The obverse of the medal depicts the 12 signs of the Zodiac in their classical styles. Each symbol is rendered in extraordinarily fine detail, and one must have a good high-power magnifying glass to truly appreciate the intricate precision of the die engraving.

A modernistic four-point star divides the Zodiac into quadrants, each represented by its own "Access Code Symbol."

The reverse features the "Magic Squares" of Ancient Egypt, as translated by archeologists from

stone carvings (2000 - 4000 B.C.). The "Access Code Symbols" are repeated on the reverse and around the perimeter are a series of astrological symbols representing the planets and their relative positions with one another.

There are many intriguing phenomena concerning the magic squares. Every row — horizontal, vertical, or diagonal — when added, totals 65. The sum of the four corner squares is the same as the sum of the four Access Squares.

An unusual but fairly simple formulae has been devised for the calculation of any individual's "daily lucky number" utilizing the Zodiac, the access codes, and the magic squares. A parchment folder explaining the procedure is supplied by the company along with each Zodiac Medallion.

Specimens are available at \$3 each for an antique golden bronze medallion, and \$5 each in antique nickel silver. Sterling silver Mint Proofs are priced at \$12 and a complete set is \$19. All prices include postage.

Further information may be obtained and medals can be ordered by writing to: Van Brook of Lexington, Inc., North Branch 5044, Lexington, Kentucky 40505. ANA 71484

# FRIENDS, ROMANS, COLLECTORS SELL ME YOUR COINS!

In conjunction with the expansion of our retail sales division, we are instituting a separate subsidiary which will be wholly devoted to making purchases for our various divisions.

Due to the enormous need generated by our full volume picture, we are placed in the position of having to buy at a constantly escalating rate. We pay so much more because we sell so much more! We can use a wide and varied assortment of numismatic items that most other dealers just don't have the facilities to handle. We want more than just a few choice items in your collection, we want and need everything, whether it is AG or PROOF, whether OBSOLETE or MODERN. If it's collectable, we want it! Complete collections any series, paper money and foreign coinage WANTED. Obviously it is impossible for us

to list what we want, because we want almost everything and are willing to pay for it.

To those of you whose holdings are considerable, the above as well as the following should be of prime importance. As a matter of policy we maintain a cash position far and above any of our immediate or long range needs. Therefore we are in a position to handle your collection or accumulation immediately. It's always nice to know when you deal with the Old Roman Inc., you are dealing with principles only.

We now invite you to ship your coins directly to us for IMMEDIATE appraisal and disposition in the form of an airmail check to you which you may either accept or decline. Either ship your coins or write for our most generous offer.

If for any reason we can't come to terms, as always we pay return postage. If it's expeditious or advantageous to either of us, we will of course travel to negotiate the purchase and transfer of your holdings.

All matters are held in the strictest confidence.

## POLITICAL AMERICANA

Jackson, Harrison, Clay, Fremont, Lincoln and Douglas! All had campaign medals and tokens struck for them. They are the real "classics" of political collecting. Prices are still surprisingly low in contrast to some of the modern celluloid buttons. An 1840 Gen. W.H. Harrison, Whig party campaign token can be purchased for as little as \$5.00 and I offer ten different varieties for \$60.00. Choose from the largest stock in the country. My latest illustrated 10 page catalog (.50c - refundable with first purchase) lists hundreds of early 19th century political campaign medals and tokens along with many later celluloid pins. I have reprinted the 1888 classic "Presidential Campaign Medals" by Gustave Kobbe - a fascinating essay on collecting these pieces, with 50 woodcut illustrations only \$1.00 per copy. 25 different pres. election buttons (originals) \$5.00. 100 mixed 1972 election buttons \$20.00.

Ben Dreiske

Many of you who have purchased items for your collection when you came to Chicago, will remember the smiling faces of Ben and Kurt.

We have done business in the heart of Chicago's downtown area for over 30 years, and have made many friends. After much deliberation, we made a decision to leave Chicago, and move to where life carries on in a much more leisurely pace, and where the sun shines most every day the year round.

Consequently we sold our interests in Chicago, and moved to Pompano Beach, Florida. We have opened an attractive coin and stamp shop, and invite our friends to pay us a visit when coming to the southland.

Have also purchased several nice collections, and invite your inquiries and want lists. You will receive a prompt and courteous reply, and we just might have something you would like.
